Summary of Facts and Representations

1. The Applicant. ARINC represents that it was founded in 1929 and provides transportation communications and systems engineering solutions to the defense industry and the airline industry. ARINC maintains 84 offices worldwide and serves more than 3,000 customers in more than 140 countries. ARINC confirms that its products and services

generated approximately \$636 million in annual revenues in 2003. Ninety-six percent of the voting shares of ARINC are owned by the six major United States airlines: American Airlines, Delta Airlines, Continental Airlines, Northwest Airlines, United Airlines, and U.S. Airways.

The Independent Fiduciary retained to represent the Plan in connection with the exemption request, Independent Fiduciary Services, Inc. (IFS), submitted a report to the Department on June 18, 2004 (the IFS Report). The IFS Report provides that ARINC is a leading provider of mission-critical communications and IT services to the global aviation industry (45% of revenues) and engineering services to the U.S. military and other government agencies (55%). The Federal Communications Commission has granted ARINC the exclusive right to manage and license the radio frequencies used by the airlines, and ARINC networks carry more than half of all air-ground messages in the world between commercial aircraft and airline operation centers. Other commercial transportation products include airport check-in and boarding systems, flight display and information systems, commuter rail control and information systems, and mobile private digital networks and ground communications systems. ARINC also provides engineering services such as systems engineering, acquisition and program management, operational support, and life-cycle support for defense aviation systems, with offices located at every U.S. Air Force base. ARINC also provides onsite technical and training support for complex electronic systems for all branches of the military, and provides integration of new navigational, communications, and command and control systems for defense and other government agencies.

2. The Property and the Qualified Independent Appraiser. ARINC has its headquarters in Annapolis, Maryland, where it occupies a six building office complex situated on 27.6 acres. The Applicant represents that this Property will be unencumbered at the time of the transaction and is a marketable and substantial asset appraised by Deloitte & Touche LLP (Deloitte) at \$49,000,000 as of June 30, 2004 (The Appraisal). IFS appointed Deloitte, a nationally recognized, qualified, independent appraiser to appraise the Property. The Appraisal also estimated the prospective market value of the leased fee interest in the Property at the end of a 23-year lease to be \$83,000,000. In a June 17, 2004 letter to IFS, Deloitte represents that, in accordance with the guidelines set out
