Notice of Availability for Public Viewing of a Final Programmatic Environmental Assessment and a Finding of No Significant Impact (FONSI) Relative to Customs and Border Protection's Gamma Imaging Inspection System for Use at Various Sea and Land Ports of Entry

AGENCY: Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces the availability for public viewing of a Final Programmatic Environmental Assessment (PEA) and a Finding of No Significant Impact (FONSI) relative to the gamma imaging inspection system employed by the Bureau of Customs and Border Protection at various sea and land ports of entry. The Final PEA and FONSI are being issued and made available to the public in accordance with the National Environmental Policy Act of 1969 (NEPA) and the Council on Environmental Quality (CEQ) regulations for Implementing the NEPA. **DATES:** The Final PEA and the FONSI will be available for public review for a 30-day period beginning on September 16, 2004.

ADDRESSES: Copies of the Final PEA and FONSI may be obtained by writing, telephoning, or e-mailing, respectively, as follows: U.S. Customs and Border Protection, Suite 1575, 1300 Pennsylvania Avenue, NW., Washington, DC 20229, Attn: Mr. Thomas Nelson; (202) 344-2975; or THOMAS.Nelson@associates.dhs.gov; or by accessing the following Web site address (click on "Recent Federal Register Notices"): <http://www.cbp.gov/xp/cgov/toolbox/legal>.

SUPPLEMENTARY INFORMATION:

Background

On May 12, 2004, U.S. Customs and Border Protection (CBP) published a

general notice document in the **Federal Register** (69 FR 26400) entitled: "Notice of Availability for Public Viewing of a Draft Programmatic Environmental Assessment Concerning CBP's Use of the Vehicle and Cargo Inspection System (VACIS) at Various Sea and Land Ports of Entry." The May 2004 notice indicated that the draft Programmatic Environmental Assessment (PEA) had been prepared and made available to the public in accordance with the National Environmental Policy Act of 1969 (NEPA), the Council on Environmental Quality (CEQ) Regulations for Implementing the NEPA (40 CFR parts 1500-1508), and Department of the Treasury Directive 75-02 (Department of the Treasury Environmental Quality Program). The notice discussed the gamma imaging or radiation inspection system (referred to there as the VACIS system), briefly explained the applicable NEPA process, informed the public on how to obtain a copy of the draft PEA, and requested comments from the public on the draft PEA.

As set forth in the notice, the VACIS system employs a non-intrusive inspection technique that uses low energy gamma radiation technology and allows CBP inspectors to inspect for contraband without having to physically enter into or unload motor vehicles, containers, or other conveyances. Deployment of this technology is already underway and will continue at various land ports and sea ports of entry throughout the United States and Puerto Rico. Given the serious nature of CBP's mission to protect the nation's borders from terrorism, it is envisioned that all ports are candidates for deployment of this technology in the future.

The NEPA Process

NEPA requires that an agency evaluate for environmental implications any proposal of a major Federal action that significantly affects the quality of the human environment. Under § 1508.18(a) of the CEQ regulations (40 CFR 1508.18(a)), a major Federal action includes not only new activities but also continuing agency activities, such as the gamma imaging inspection system deployed by CBP. To meet the NEPA evaluation requirement, a Federal agency, in some instances, must produce an Environmental Impact Statement (EIS) that thoroughly examines the environmental implications (or impacts) of a major Federal action. In other instances, an agency need only prepare an Environmental Assessment (EA) that briefly analyzes the environmental impacts to assist the agency in decision
