Title: Annual Reporting Form for State Small Business Stationary Source Technical and Environmental Compliance Assistance Programs (SBTCPs).

Abstract: As part of the Clean Air Act Amendments of 1990, the U.S. Congress included, as part of Section 507, the requirement that each state establish a Small Business Stationary Source Technical and Environmental Compliance Assistance Program (SBTCP) to assist small businesses in complying with the Act. EPA must provide the Congress with periodic reports from the EPA Small Business Ombudsman on these programs, including their effectiveness, difficulties encountered, and other relevant information. Each state assistance program will submit requested information to EPA for compilation and summarization.

Information collection includes number of full time employees, annual budgets, activities provided and number of small businesses assisted by the SBTCP. Small business case studies and

success stories are also requested by EPA. Response to the collection is not required to obtain or retain a benefit. Information in the annual Report to Congress is aggregated and is not of a confidential nature. None of the information collected by this action results in or requests sensitive information of any nature from the states.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States.

Estimated Number of Respondents: 53.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 2,120.

Estimated Total Annual Cost: \$93,216 includes \$0 annualized capital or O&M costs. Changes in the Estimates: Since there is no increase or decrease, the burden hour remains at 2,120.

Dated: September 4, 2004.

Oscar Morales,

Director, Collection Strategies Division.
