Notice of Extension of Time Limit for Final Results of Administrative Review: Stainless Steel Plate in Coils From Belgium

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is extending the time limit for the final results in the antidumping duty administrative review of stainless steel plate in coils from Belgium until no later than December 7, 2004. The period of review is May 1, 2002 through April 30, 2003.

EFFECTIVE DATE: September 17, 2004.

FOR FURTHER INFORMATION CONTACT: Elfi Blum or Toni Page at (202) 482-0197 or (202) 482-1398, respectively; Office of Antidumping/Countervailing Duty Enforcement VI, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Statutory Time Limits: Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act) requires the Department to issue the final results in

an administrative review within 120 days after the date on which the preliminary results were published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to 180 days from the date of publication of the preliminary results.

Extension of Time Limits for Final Results

On June 10, 2004, the Department published the preliminary results of this administrative review. *See Stainless Steel Plate in Coils from Belgium: Preliminary Results of Antidumping Duty Administrative Review*, (69 FR 32501). The current deadline for the final results in this review is October 8, 2004. In accordance with 751(a)(3)(A) of the Act, and 19 CFR 351.213(h)(2), the Department finds that it is not practicable to complete the review within the original time frame because verification of respondent's submitted information took place after the preliminary results were published. Verification of respondent's sales and costs submissions took place from June 21, 2004 through June 30, 2004, in Genk, Belgium, and verification of constructed export price took place from July 21, 2004 through July 30, 2004, in New York, NY. We find that in order to afford the parties to this proceeding sufficient time to submit their case and rebuttal briefs and for the Department to analyze fully the parties' arguments, completion of this review is not practicable within the original time limit.

Consequently, in accordance with sections 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations, the Department is extending the time limit for the completion of the final results of the review to 180 days from the publication of the preliminary results. The final results will now be due no later than December 7, 2004.

Dated: September 13, 2004.

Jeffrey A. May,

Deputy Assistant Secretary for Import Administration.

Structural Steel Beams From Japan: Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of changed circumstances antidumping duty administrative review.

SUMMARY: On May 14, 2004, the Department of Commerce ("the Department") published a notice of preliminary results in the above-named case. We received only supportive comments and no request for a hearing. Accordingly, the Department continues to find that Yamato Steel Co., Ltd. ("Yamato Steel") is the successor-in-interest to Yamato Kogyo Co. Ltd., ("Yamato Kogyo").

FOR FURTHER INFORMATION CONTACT: Melissa Blackledge or Howard Smith, AD/CVD Enforcement Office IV, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-3518 and (202) 482-5193, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 14, 2004, the Department published *Notice of Preliminary Results of Antidumping Duty Changed Circumstances Review: Structural Steel Beams From Japan*, 69 FR 26807 (*Preliminary Results*). We gave interested parties 30 days to comment on our preliminary results.

On June 14, 2004, the Department received comments from Yamato Steel in support of the Department's preliminary results. Yamato Steel argues that the Department correctly found, based on the evidence on the record provided by Yamato Steel, that the change in ownership of Yamato Kogyo has not significantly changed the company's management, production facilities, supplier relations, or customer base. Yamato Steel adds that the record contains no contrary facts or objections to the evidence upon which the Department relied in the preliminary results, and therefore, the Department should affirm its preliminary finding in the final results.

The Department received no other comments from interested parties. In

addition, the Department did not receive a request for a hearing.

Scope of the Review

For purposes of this review, the products covered are doubly-symmetric shapes, whether hot or cold-rolled, drawn, extruded, formed, or finished, having at least one dimension of at least 80 mm (3.2 inches or more), whether of carbon or alloy (other than stainless) steel, and whether or not drilled, punched, notched, painted, coated, or clad. These products ("Structural Steel Beams") include, but are not limited to, wide-flange beams ("W" shapes), bearing piles ("HP" shapes), standard beams ("S" or "I" shapes), and M-shapes.

All products that meet the physical and metallurgical descriptions provided above are within the scope of this review unless otherwise excluded. The following products, are outside and/or specifically excluded from the scope of this review:

Structural steel beams greater than 400 pounds per linear foot or with a web or section height (also known as depth) over 40 inches.

The merchandise subject to this review is currently classifiable in the Harmonized Tariff Schedule of the United States ("HTSUS") at subheadings: 7216.32.0000, 7216.33.0030, 7216.33.0060, 7216.33.0090, 7216.50.0000, 7216.61.0000, 7216.69.0000, 7216.91.0000, 7216.99.0000, 7228.70.3040, 7228.70.6000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under review is dispositive.

Final Results of the Review

On the basis of the information on the record of this changed circumstance review, we have determined that Yamato Steel is the successor-in-interest company to Yamato Kogyo for purposes of determining antidumping duty liability in this proceeding. For a complete discussion of the basis for this decision, see the *Preliminary Results*. Therefore, Yamato Steel shall retain the antidumping duty cash deposit rate assigned to Yamato Kogyo by the Department in the most recent administrative review of the subject merchandise, *i.e.*, zero percent.

Instructions to U.S. Customs and Border Protection

The cash deposit determination from this changed circumstances review will apply to all entries of the subject merchandise entered, or withdrawn
