

this coverage; therefore, CDC proposes to fund the survey. CDC proposed to fund the survey from 2004–2010. The survey will allow CDC to continue to measure progress of State Medicaid Programs toward the 2010 National Health Objective and document changes in the provision of coverage toward reaching the Healthy People 2010 goal.

The objectives of the project are as follows:

- Conduct a study of all 50 states and the District of Columbia Medicaid Programs to determine coverage for tobacco dependence treatment (counseling and FDA-approved pharmacotherapies) and assess compliance with the PHS recommendations.

- Analyze and publish the data.

Medicaid recipients have approximately 50% greater smoking

prevalence than the overall U.S. adult population, and they are disproportionately affected by tobacco-related disease and disability.

Substantial action to improve coverage will be needed if the United States is to achieve the 2010 National Health Objective of 12% smoking prevalence among adults.

This project will provide an opportunity to assess the extent of coverage for tobacco-dependence treatment under Medicaid. In 2002, 36 states provided coverage for some FDA approved medications; however, only 10 states provided some form of coverage for counseling and only 2 states provided comprehensive coverage, counseling and medication. Fifteen states provided no coverage. This project will be conducted with a mailed request to State Medicaid

directors to identify a knowledgeable person within their system to respond to the survey. The survey will be mailed to the identified individuals.

Respondents will be asked to submit a written copy of their Medicaid coverage policies. If responses are not received, individuals will receive a telephone follow-up. Respondents are mailed the survey that they completed the previous year and asked to make revisions if changes have occurred. If this is being done by the person who completed the survey the previous year, the response burden is reduced. If the questions are not answered or not answered clearly, follow-up is required which takes additional time. All 50 states plus the District of Columbia have reported in the past. There is no cost to respondents except the time to complete the survey.

ANNUALIZED BURDEN TABLE

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hrs)	Total burden hours
State Medicaid Programs with Minimal Response	35	1	15/60	9
State Medicaid Programs with Maximum Response	16	1	1	16
Total	51	25

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

(1) *Type of Information Collection Request:* Extension of a currently approved collection; *Title of*

Information Collection: On-site Inspection for Durable Medicare Equipment (DME) Supplier Location and Supporting Regulations in 42 CFR, Section 424.57; *Form No.:* CMS-R-263 (OMB # 0938-0749); *Use:* CMS collects information on any supplier who submits bills to Medicare or who applies for a Medicare Billing Number before allowing the supplier to enroll. This information must minimally clearly identify the provider and its place of business as required in Public Law 99-272 Section 9202(g) and provide all necessary documentation to prove that they are qualified to perform the services for which they are billing. The on-site inspection for Durable Medical Equipment (DME) Supplier Location verifies this information; *Affected Public:* Business or other for-profit, not-for-profit institutions, and State, Local, or Tribal Gov.; *Number of Respondents:* 20,000; *Total Annual Responses:* 20,000; *Total Annual Hours:* 10,000.

(2) *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* CMSO Survey of States: Performance Measurement Reporting Capability; *Form No.:* CMS-10082 (OMB # 0938-0898); *Use:* Because of the wide variability of Medicaid and SCHIP financing and service delivery approaches, there is little common ground from which to develop uniform reporting on performance measures by states. While CMS has decided on the first seven measures to be used, the ability of states to calculate those measures using HEDIS directly or HEDIS specifications (*e.g.*, when calculating measures from fee-for-service claims data) is highly variable. Current efforts are focused on assessing the capability of each state to report on the selected measures and on helping states to make necessary adjustments in order to be able to report measures uniformly so that state-to-state comparisons can be made. To accomplish this, states will be requested to report available numerator and denominator data for the seven core HEDIS measures via a survey instrument created for this purpose. The data will be requested for each state's Medicaid and SCHIP programs by delivery system; *Frequency:* Once; *Affected Public:* State, local, or tribal government; *Number of Respondents:* 51; *Total Annual Responses:* 51; *Total Annual Hours:* 2,360.
