Title: Region 7 Lead Education and Awareness Project in St. Louis, Missouri (Agency Information Collection); EPA ICR Number 2161.01.

Abstract: EPA Region 7 and the Office of Compliance (OC) within the Office of Enforcement and Compliance Assurance (OECA) are planning to conduct a performance baseline survey and follow-up survey for the Lessors and Lessees sectors. The OC is interested in having a baseline performance survey conducted and compliance assistance needs assessed for the Lessors sector. In addition, OC is interested in assessing the awareness and behavioral change of Lessees through a survey. There are three main purposes for these Lessor and Lessee surveys:

(1) To determine a baseline level of regulatory awareness of and compliance with the "Residential Lead-Based Paint Hazard Reduction Act of 1992" (Title X) and the "Requirements for Disclosure of Known Lead-Based Paint and/or Lead-Based Paint Hazards in Housing" rule (Disclosure Rule), from which to measure the success of the Agency's compliance outreach efforts for reporting under the Government Performance and Results Act (GPRA). For key sectors for which EPA is planning to initiate compliance assistance, a baseline level of compliance and regulatory awareness is needed from which to measure future progress.

(2) To determine the effectiveness of the Department of Housing and Urban Development's (HUD) education and outreach efforts.

(3) To determine whether lessees are reading and understanding the *Protect Your Family From Lead In Your Home* pamphlet and whether they are implementing methods to reduce lead exposure as a result.
