SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection has been re-evaluated and our estimates of the burden have been revised based on field experience. We have added the time the tribes spend in reviewing applications, the cost of soliciting applications and

the cost of house inspection for each possible recipient. This additional cost is incurred regardless of whether or not the applicant is awarded a home improvement grant. These changes are an adjustment to the burden because the added burden was there before.

The information is needed to establish an applicant's eligibility to receive services under the Housing Improvement Program and to establish the priority order in which eligible applicants may receive services under the program. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

II. Request for Comments

We specifically request your comments be submitted to OMB at the address provided above with a copy to the Bureau of Indian Affairs within 30 days concerning the following:

1. Whether the collection of information is necessary for the proper performance of the functions of the BIA, including whether the information will have practical utility;
2. The accuracy of the BIA's estimate of the burden to collect the information, including the validity of the methodology and assumptions used;
3. The quality, utility and clarity of the information to be collected;
4. How to minimize the burden of the information collection on those who are to respond, including the use of appropriate automated electronic, mechanical or other forms of information technology.

5. OMB is required to respond to this request within 60 days after publication of this notice in the **Federal Register**, but may respond after 30 days; therefore, your comments should be submitted to OMB within 30 days of publication to assure maximum consideration.

Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Sandra L. Simons, Manager, Contract Services Office, Bureau of Reclamation, PO Box 25007, Denver, Colorado 80225-0007; telephone (303) 445-2902.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation Project Act of 1939 and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do

not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

(1) Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

(2) Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or area office of Reclamation.

(3) Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act, as amended.

(4) Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

(5) All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

(6) Copies of specific proposed contracts may be obtained from the appropriate regional director or his designated public contact as they become available for review and comment.

(7) In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the

notice and/or extension of the comment period are necessary.

Factors considered in making such a determination shall include, but are not limited to: (i) The significance of the modification; and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director shall furnish revised contracts to all parties who requested the contract in response to the initial public notice.

The February 27, 2004, notice should be used as a reference point to identify changes. The numbering system in this notice corresponds with the numbering system in the February 27, 2004, notice.
