

the formation of public-private partnerships. This program is designed specifically to encourage greater leveraging of public transportation funds and attract private investment to transportation projects by providing credit assistance in the form of direct loans, loan guarantees, and standby lines of credit.

Little use has been made of the loan authority provided by 23 U.S.C. 129(a)(7). The FHWA welcomes proposals to use this "129(a)(7)" authority, which allows highway apportionments to be used for low cost loans to projects with dedicated revenue sources, as part of a three-way financing partnership between the State, the private venture partner, and the FHWA. By coupling "129(a)(7) authority" with TIFIA, tax-exempt bond financing, and Federal-aid grant funding as an integrated financing package, FHWA believes that this kind of partnership will serve as a catalyst for moving public-private partnerships quickly from concept to construction. When the State makes a 129(a)(7) loan to an eligible public or private entity, the State receives reimbursement from FHWA and is repaid the loan amount plus applicable interest by the borrower, which the State may then use for any eligible title 23 U.S.C. purpose; thus, assisting the State to establish a revolving loan fund for future projects.

The FHWA will devote the internal resources necessary to evaluate the financing package, offer alternative financing solutions, and establish financial feasibility in order to move the project from concept to commitment of Federal funds (where applicable) and construction.

Joint Development Agreements

In addition to the transportation project itself, significant benefit and revenue potential may be realized from joint use of the transportation facility. Thus, the ROW may be used both for transportation purposes and other uses that are compatible with the transportation use, such as airspace development. Even joint use of the airspace of Interstate and other limited access highways is favored, so long as the transportation purpose is not impaired. States are encouraged to enter into joint development agreements with private parties by current Federal law, 23 U.S.C. 156. Under this provision, if FHWA participates in the cost of acquiring real property needed for a proposed project, there are specific requirements that apply to the sale or lease of the real property acquired with Federal funds (such as air rights). These requirements may include such things

as ensuring that the amount realized by sale or lease represents the fair market value of the interest at issue. The net realized must be dedicated to transportation purposes. Waivers of the requirement to charge the fair market value are available in limited circumstances.

Application Process

A State DOT should submit SEP-15 proposals to the appropriate FHWA Division Office. Proposals may include localities and private transportation ventures as project sponsors. SEP-15 applications should provide a brief description of the project, including the innovative techniques proposed and the expected value of those techniques.

Upon the completion of major milestones, the public-private sponsors will be responsible for submitting an independently prepared report that summarizes lessons learned from the SEP-15 process. These reports shall include the experiment undertaken, the lessons learned, evaluate the success of the process and its impact on the project, and recommend statutory and regulatory changes with an explanation of how the changes will improve the delivery of the Federal-aid highway program.

Conclusion

The Secretary has identified public-private partnerships as being an important element of the Department's ability to reduce congestion and maintain the highway system. To this end, SEP-15 is designed to encourage a broad range of innovations in project planning, project development, finance, design, construction, maintenance, and operations. This notice outlines some areas in which States may experiment and innovate in order to help provide some framework for experimentation. Project proponents applying under SEP-15, however, are encouraged to propose innovations in all areas of title 23, U.S.C.

(Authority: 23 U.S.C. 315 and 502).

Federal Highway Administrator.
