### Background

On May 13, 2002, the Farm Security and Rural Investment Act of 2002 (Farm Bill) was signed into law as Public Law 107-171. The CONACT was amended by section 6012 of the Farm Bill, by adding a grant program to establish a lending program. For this program, the Secretary may make grants to private nonprofit organizations for the purpose of providing loans to eligible individuals for the construction, refurbishing, and servicing of individual household water well systems in rural areas that are or will be owned by the eligible individuals.

The CONACT defines an "eligible individual" to mean an individual who is a member of a household the members of which have a combined income (for the most recent 12-month period for which the information is

available) that is not more than 100 percent of the median nonmetropolitan household income for the State or territory in which the individual resides, according to the most recent decennial census of the United States.

This program is authorized to be appropriated \$10,000,000 for fiscal years (FY) 2003 through 2007.

There was no funding appropriated in FY 2003. However, the Consolidated Appropriations Act, 2004, Public Law 108-199 (Jan. 23, 2004; 118 Stat.3) includes \$1,000,000 for the grant program in FY 2004.

Due to the modest size of this program and the maximum dollar amount of loans to be made hereunder, RUS has determined that loans may be serviced, if approved by USDA, through the USDA Centralized Servicing Center to enhance standardized servicing and minimize related servicing fees. To reduce duplicative promulgation of specific rules regarding grants and loans hereunder, RUS has referenced existing USDA rules to the extent practicable, including references to specific regulations and standard forms.

A notice of inquiry was published in the **Federal Register** on February 10, 2004 (69 FR 6251) requesting comments on the Household Water System grant program. RUS received a total of 15 comments. All comments received were taken into consideration in developing the regulation. The following is a brief summary of the comments received.

*Grantees' experience with household water systems.* All the commenters felt that the grantee should have extensive experience with household water systems. Due to the complexity of household water systems, RUS feels that an organization must have extensive experience working with household water systems in order to assess solutions, determine cost factors, and how to best fulfill the needs of the rural residents utilizing these systems. In accordance with the requirements in the authorizing legislation of the CONACT, RUS will give priority to applicants with such experience.

*Matching funds.* Half of the commenters felt RUS should not require a matching fund component while the other half were in favor of a matching fund requirement. Due to the small amount of funding appropriated to this program, RUS feels it is necessary to require grant recipients to contribute funds from sources other than the proceeds of a HWWS grant to pay part of the cost of a loan recipient's project. As a result of such contributions, the widest number of rural residents practicable may benefit from this program.

*Percentage of financing.* Many commenters felt the program should offer 100 percent financing. They also felt the program should be for low-income communities and that RUS should not require the eligible individual to contribute to the cost. RUS will allow 100 percent financing on these projects; however, the project costs can not exceed the statutory limit. In situations where the costs exceed the statutory limit of \$8,000 per household water well system, the eligible individual will be required to cover the additional costs.

*Administrative fees.* Many commenters felt RUS should allow administrative fees, and the limit on those fees ranged from 8 percent to 20 percent. RUS will allow administrative fees to be an eligible grant purpose; however, the administrative costs cannot exceed 10 percent of the total grant funds loaned annually. These costs also must be clearly identified in the workplan.

*Use of Centralized Servicing Center.* The majority of commenters were in favor of using the Centralized Servicing Center (CSC). Some felt if the grantee has a similar program in place, the servicing should remain with the grantee. Due to the modest size of this program and the maximum dollar amount of loans to be made hereunder, RUS has determined that loans may be serviced, if approved by USDA, through the USDA Centralized Servicing Center to enhance standardized servicing and minimize related servicing fees.

*Credit elsewhere.* Some commenters felt a denial letter would be sufficient evidence to show an inability to acquire credit elsewhere. Others felt RUS should use the credit report and income verification to satisfy the credit elsewhere requirement. RUS will require the grantee to obtain sufficient evidence that the eligible individual is unable to obtain financial assistance at reasonable terms and conditions from other non-RD sources, and lacks the personal resources to meet their needs. In addition, the eligible individual must demonstrate adequate repayment ability as supported by a budget, and they must have a credit history that indicates reasonable ability and willingness to meet debt obligations.

*Eligible and ineligible purposes.* A couple of commenters felt newly built homes and wells for uses other than potable water should be eligible for the program. Most felt the repair or replacement of failing well systems should be eligible. RUS will follow the authorizing legislation and require that grant proceeds be used solely for the purpose of providing loans to eligible

individuals for the construction, refurbishing, and servicing of individual household water well systems in rural areas that are or will be owned by the eligible individuals.

Up to 10 points

(c) All qualifying applications under this part will be scored based on the criteria contained in this section. Awards will be made based on the highest ranking applications and the amount of financial assistance available for HWWS grants. Each applicant will be notified in writing of the score its application receives.

(b) A grant recipient may use HWWS grant funds to pay administrative expenses associated with providing the assistance described in paragraph (a) of this section.

(c) A grant recipient may not use grant funds in any manner inconsistent with the terms of the grant agreement.

#### **§ 1776.13 Administrative expenses.**

(a) Subject to the limitations provided in the paragraphs (b), (c) and (d) of this section, the grant recipient may use grant funds to pay administrative expenses associated with providing HWWS loans.

(b) Administrative expenses incurred in any calendar year which exceed ten percent of the HWWS loans made by the grant recipient during that same period do not qualify for reimbursement.

(c) Administrative expenses incurred prior to the execution of the grant agreement by RUS do not qualify for reimbursement.

(d) Allowability of administrative expense costs shall be determined in accordance with 7 CFR 3019.27.

### **Subpart C—HWWS Loans**

#### **§ 1776.14 Eligibility to receive a HWWS loan.**

(a) The loan recipient must be an eligible individual.

(b) The loan recipient must either own and occupy the home being improved with the proceeds of the HWWS loan, or be occupying the home as the purchaser under a legally enforceable land purchase contract which is not in default by either the seller or the purchaser.

(c) The home using the water well system being funded from proceeds of the HWWS loan must be located in a rural area.

(d) The water well system being funded from the proceeds of the HWWS loan may not be associated with the construction of a new dwelling.

(e) The water well system being funded from the proceeds of the HWWS loan may not be used to substitute for water service available from collective water systems. Example: Loan recipient wishes to restore an old well which had been abandoned when the dwelling was connected to a water line belonging to a water district.

(f) A loan recipient must not be suspended or debarred from participation in Federal programs.

#### **§ 1776.15 Terms of loans.**

(a) HWWS loans under this part—

(1) Shall have an interest rate of 1 percent;

(2) Shall have a term not to exceed 20 years; and

(3) Shall not exceed \$8,000 for each household water well system.

(b) The grant recipient must set forth the HWWS loan terms in written documentation signed by the loan recipient.

(c) Grant recipients must develop and use HWWS loan documentation that conforms to the terms of this part, the grant agreement, and the laws of the state or states having jurisdiction.

#### **§ 1776.16 Loan servicing.**

(a) If RUS determines that HWWS loans may be serviced by CSC, then the grant recipient will enter into an agreement with the Centralized Servicing Center for servicing all HWWS loans made from the revolving loan fund. All HWWS loan payments will be received by and processed at the Centralized Servicing Center. The grant recipient will be charged a fee for this service, and such fee should be included in the projected financial statements and work plan submitted as part of the grant application. This fee may be reimbursed as an administrative expense as provided in § 1776.13.

(b) If RUS determines that CSC is not able to service HWWS loans, then the grant recipient shall be responsible for servicing, or causing to be serviced, all HWWS loans. Servicing will include preparing loan agreements, processing loan payments, reviewing financial statements and debt reserves balances, and other responsibilities such as enforcement of loan terms. Loan servicing will be in accordance with the work plan approved by RUS when the grant is awarded for as long as any loan made in whole or in part with RUS grant funds is outstanding.

#### **§ 1776.17 Revolving loan fund maintenance.**

For as long as any part of the HWWS grant remains available for lending, and loans made from the revolving loan fund have an outstanding balance due, the grant recipient must maintain the revolving loan fund for the purposes set forth in § 1776.13.

(a) All HWWS grant funds received by a grant recipient must be deposited into the revolving loan fund.

(b) The grant recipient may transfer additional assets into the revolving loan fund.

(c) All cash and other assets of the revolving loan fund shall be deposited in a separate bank account or accounts.

(d) No cash or other assets of any other fund maintained by the grant recipient shall be commingled with the cash and other assets of the revolving loan fund.

(e) All moneys deposited in such bank account or accounts shall be money of the revolving loan fund.

(f) Loans to loan recipients are advanced from the revolving loan fund.

(g) The receivables created by making loans, the grant recipient's security interest in collateral pledged by loan recipients, collections on the receivables, interest, fees, and any other income or assets derived from the operation of the revolving loan fund are a part of the revolving loan fund.

(h) The portion of the revolving loan fund that consists of HWWS grant funds, on a last-in-first-out basis, may only be used for those purposes set forth in this part.

(i) The grant recipient must submit an annual budget of proposed administrative costs for RUS approval. The amount removed from the revolving loan fund for administrative costs in any year must be reasonable, must not exceed the actual cost of operating the revolving loan fund, including loan servicing and providing technical assistance, and must not exceed the amount approved by RUS in the grant recipient's annual budget.

(j) A reasonable amount of revolved funds must be used to create a reserve for bad debts. Reserves should be accumulated over a period of years. The total amount should not exceed maximum expected losses, considering the quality of the grant recipient's portfolio of loans. Unless the grant recipient provides loss and delinquency records that, in the opinion of RUS, justifies different amounts, a reserve for bad debts of 6 percent of outstanding loans must be accumulated over 3 years and then maintained as set forth in the grant agreement.

(k) Any cash in the revolving loan fund from any source that is not needed for debt service, approved administrative costs, or reasonable reserves must be available for additional loans to loan recipients.

(l) All reserves and other cash in the revolving loan fund not immediately needed for loans to loan recipients or other authorized uses must be deposited in accounts in banks or other financial institutions. Such accounts must be fully covered by Federal deposit insurance or fully collateralized with U.S. Government obligations, and must be interest bearing. Any interest earned thereon remains a part of the revolving loan fund.
