Pursuant to section 402 of the Clean Water Act (CWA), 33 U.S.C. section 1342, EPA proposed and solicited comments on NPDES general permit GMG290000 at 69 FR 39478 (June 30, 2004). Notice of this proposed permit modification was also published in the New Orleans Times Picayune, Lafayette Daily Advertiser, and Houston Chronicle on July 2, 2004. The comment period closed on July 30, 2004.

Region 6 received comments from the Offshore Operators Committee, Petroleum Equipment Suppliers Association, Cognis Oilfield Chemicals, Minerals Management Service, Murphy Exploration and Development Company, and W&T Offshore, Inc.

EPA Region 6 has considered all comments received. In response to those comments the following changes were made to the proposed permit. The effective date was changed to be 30 days after the publication date in the **Federal Register**. Produced water monitoring requirements are included for facilities located in the hypoxic zone. The analytical method for analysis of cadmium in barite is included. A new allowance is included for blending of compliant synthetic base fluids in drilling fluids. The discharge of hydrate control fluids was added to the list of miscellaneous discharges which are authorized. The toxicity limit for sub-sea fluids was decreased from 200 mg/l to 50 mg/l. Non-lethal effects are required to be reported for chronic toxicity testing and the dilution series required for testing was clarified. A number of minor typographical errors

and clarifications were also made to the permit's language.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) being Reviewed by the Federal Communications Commission

September 30, 2004.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

Number of Respondents: 60,000.

Estimated Time Per Response: .166–4.5 hours.

Frequency of Response: On occasion reporting requirement, third party disclosure requirement and recordkeeping requirement.

Total Annual Burden: 480,000 hours.

Total Annual Cost: Not applicable.

Privacy Act Impact Assessment: Not applicable.

Needs and Uses: In the Fifth Report and Order in CC Docket No. 02-6, FCC 04-190, adopted on August 4, 2004 and released on August 13, 2004, the Commission is revising this collection pursuant to suggestions from the Department of Justice, in an effort to prevent waste, fraud, and abuse of the schools and libraries program. The changes made to the FCC Forms 470 and 471 will make the E-Rate process more transparent, and will make transgressions of the law easier to detect and prosecute. For example, on the FCC Form 470, applicants must now certify that they have not “received anything of value or a promise of anything of value, other than services and equipment sought by means of the form, from the service provider * * *.” Similarly, in the FCC Form 471, applicants must now certify that “no kickbacks were paid to anyone * * *.” Finally, we are seeking OMB approval for an additional reporting element, *i.e.*, the FCC Registration Number (FRN). As part of the review process of Funding Year 2005, the Administrator will be collecting the FRN from applicants to supplement their application. The Commission will implement a revised FCC Forms 470 and 471 to include collection of the FRN starting with Funding Year 2006.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.
