AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Postponement of Preliminary Antidumping Duty Determinations.

EFFECTIVE DATE: October 8, 2004.

FOR FURTHER INFORMATION CONTACT: Thomas Killiam (PRC) or Michele Mire (Spain), Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, DC 20230; telephone (202) 482–5222 or (202) 482–4711, respectively.

SUMMARY: The Department of Commerce (the Department) is postponing the preliminary determinations in the antidumping duty investigations of

chlorinated isocyanurates (isos) from the People's Republic of China (PRC) and Spain. The deadline for issuing the preliminary determinations in these investigations is currently October 21, 2004.

SUPPLEMENTARY INFORMATION:

Background

On June 10, 2004, the Department published the initiation of antidumping duty investigations of chlorinated isos from the PRC and Spain. *See* Initiation of Antidumping Duty Investigations: Chlorinated Isocyanurates From the People's Republic of China and Spain, 69 FR 32,488 (June 10, 2004). This notice stated that the Department would issue its preliminary determinations no later than 140 days after the date of initiation, which is October 21, 2004.

Postponement of Preliminary Determinations

Pursuant to section 733(c)(1)(A) of the Tariff Act of 1930, as amended (the Act), the petitioner may request a postponement from 140 days to not later than 190 days after the initiation of an investigation. A written request, including reasons for the postponement, may be submitted to the Department at least 25 days prior to the preliminary determination.

On September 16, 2004, Clearon Corporation and Occidental Chemical Corporation, the petitioners to these proceedings, made timely requests pursuant to section 733(c)(1)(A) of the Act and 19 C.F.R. 351.205(e) for postponement of the preliminary determinations in both investigations for 50 days or until December 10, 2004. The petitioners requested postponement of the preliminary determinations so that the petitioners and the Department can analyze more fully the information that has been submitted in these investigations, as well as analyze information that is due to be filed in early October. There are no compelling reasons for the Department to deny these requests.

Therefore, for the reasons identified by the petitioners, and pursuant to section 733(c)(1)(A) of the Act, and 19 CFR 351.205(e), the Department is postponing the deadline for issuing the preliminary determinations until December 10, 2004. The deadline for the final determinations will continue to be 75 days after the date of the preliminary determinations, unless extended.

This notice of postponement is in accordance with section 733(c)(2) of the Act, and 19 CFR 351.205(f)(1).

Dated: October 1, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

Notice of Preliminary Determination of Sales at Less Than Fair Value: Certain Circular Welded Carbon Quality Line Pipe From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") has preliminarily determined that imports of certain circular welded carbon quality line pipe from the People's Republic of China ("PRC") are being, or are likely to be, sold in the United States at less than fair value ("LTFV"). The estimated margin of sales at LTFV is shown in the "Suspension of Liquidation" section of this notice.

Interested parties are invited to comment on this preliminary determination. We will make our final determination not later than 75 days after the date of this preliminary determination.

EFFECTIVE DATE: October 8, 2004.

FOR FURTHER INFORMATION CONTACT:

Brian Smith at 202-482-1766, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On March 3, 2004, the Department received an antidumping duty petition filed in proper form by American Steel Pipe Division of American Cast Iron Pipe Company, IPSCO Tubulars Inc., Lone Star Steel Company, Maverick Tube Corporation, Northwest Pipe Company, and Stupp Corporation (collectively "the petitioners"). On March 30, 2004, this investigation was initiated. *See Notice of Initiation of Antidumping Duty Investigation: Certain Circular Welded Carbon Quality Line Pipe from Mexico, the Republic of Korea, and the People's Republic of China*, 69 FR 16521 (March 30, 2004).

On April 6, 2004, the Department requested from the Embassy of the People's Republic of China, Baoji Oil

Country Tubular Goods Plant, Fanyu Zhujiang Steel Pipe Co Ltd., Jiling Jiyuan Steel Pipe Co., Ltd., Shanghai Alison Steel Pipe Co., Ltd. ("Shanghai Alison"), and Shengli Petroleum Administrative Bureau Steel Pipe Plant, the quantity and value ("Q&V") of subject merchandise exported to the United States during the period July 1, 2003, through December 31, 2003.¹ The Department received a response sent by regular (non-express) delivery on May 10, 2004, from Shanghai Alison, dated April 23, 2004. Due to several filing format or service deficiencies, and because the questionnaire response was submitted past the April 21 deadline, the submission from Shanghai Alison was rejected in accordance with § 351.302(d) of the Department's regulations. *See Letter to Shanghai Alison from Edward Yang Re: Quantity and Value (Q&V) Questionnaire*, dated June 4, 2004. The Department received no other responses to the Q&V questionnaire.

On April 19, 2004, the Department received comments related to the scope of the proceeding from the petitioners and Central Plastics Company ("CPC"), an interested party. CPC requested that line pipe of nominal pipe size outer diameters of 1¼ inch and less be excluded from the scope of the investigation. According to CPC, line pipe of 1¼ inch nominal pipe size outer diameter and less has different physical characteristics and can be used in very unique and specific applications. CPC uses this line pipe to distribute natural gas for household and business uses. CPC states that its ability to use pipe greater than 2 inches nominal pipe size outer diameter is not feasible given the specialized production processes used. Since this line pipe is more specialized, it is differentiated from the more common industrialized types of line pipe the investigation seeks to cover.

In support of the exclusion, CPC also contends that the quantities of line pipe it imports are 0.1 percent of the market. CPC also notes that it uses domestic line pipe when possible, but there are certain quality and quantity constraints. Therefore, CPC must rely to some extent on imports. Finally, CPC states that a loss of jobs would most likely result from any coverage of line pipe in question by an antidumping duty finding.

On April 21, 2004, petitioners submitted comments confirming that they do not oppose this request. Therefore, we have amended the scope

¹ The Department identified these companies through Internet research and Customs information as being large producers of subject merchandise.
