Background

On September 17, 2004, the Department of Commerce ("the Department") published in the **Federal Register** notice of the termination of the Agreement Suspending the Countervailing Duty Investigation on Hot-Rolled Flat-Rolled Carbon-Quality Steel from Brazil and notice of countervailing duty order. See *Agreement Suspending the Countervailing Duty Investigation on Hot-Rolled Flat-Rolled Carbon-Quality Steel from Brazil; Termination of Suspension Agreement and Notice of Countervailing Duty Order*, 69 FR 56040 (September 17, 2004) ("Termination Notice"). In the *Termination Notice*, the Department inadvertently listed separate countervailing duty *ad valorem* rates for Usinas Siderurgicas de Minas Gerais, S.A. ("USIMINAS") and Companhia Siderurgica Paulista ("COSIPA"). See *Termination Notice*, 69 FR at 56043. However, in the final determination of the underlying countervailing duty investigation, the Department determined USIMINAS and COSIPA to be affiliated under section 771(33)(E) of the Tariff Act of 1930, as amended ("the Act"), and calculated a single countervailing duty rate for both companies (e.g., USIMINAS/COSIPA). See *Final Affirmative Countervailing Duty Determination: Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products From Brazil*, 64 FR 38742,

38744 & 38755 (July 19, 1999). Therefore, the final countervailing duty *ad valorem* rate and cash deposit rate for USIMINAS/COSIPA is as follows:

Manufacturer/exporter	Net subsidy rate percent
USIMINAS/COSIPA	9.67

This notice is published in accordance with sections 704(i) and 777(i) of the Act. This order is published in accordance with section 706(a) of the Act.

Dated: September 28, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION**I. Abstract**

This collection of information is required by 35 U.S.C. 261 and 262 for patents and 15 U.S.C. 1057 and 1060 of the Trademark Act of 1946 for trademarks. These statutes permit the United States Patent and Trademark Office (USPTO) to record patent and trademark assignment documents, including transfers of properties (*i.e.* patents and trademarks), liens, licenses, assignments of interest, security interests, mergers, and explanations of transactions or other documents that record the transfer of ownership of a particular patent or trademark property from one party to another. Assignments are recorded for applications, patents, and trademark registrations.

The USPTO administers these statutes through 37 CFR part 3 (3.1-3.85) for patents and trademarks, and also 37 CFR 2.146 and 2.171 for trademarks. These rules permit the public, corporations, other federal agencies, and Government-owned or Government-controlled corporations to submit patent and trademark assignment documents and other documents related to title transfers to the USPTO to be recorded. In accordance with 37 CFR 3.54, the recording of an assignment document by the USPTO is an administrative action and not a determination of the validity of the document or of the effect that the document has on the title to an application, patent, or trademark.

Once the assignment documents are recorded, they are available for public inspection. The only exceptions are those documents that are sealed under secrecy orders according to 37 CFR 3.58 or related to unpublished patent applications maintained in confidence under 35 U.S.C. 122. The public uses these records to conduct ownership and chain-of-title searches. The public may view these records either at the USPTO or at the National Archives and Records Administration, depending on the date they were recorded. The public may also search patent and trademark assignment information online through the USPTO Web site at <http://www.uspto.gov>.

In order to assist the public in submitting assignment documents for recording, the USPTO developed patent and trademark assignment cover sheets that capture all of the necessary data for accurately recording various assignment documents. To record an assignment, the respondent must submit an appropriate cover sheet along with the assignment documents to be recorded. The USPTO provides two paper forms for this purpose, the Patent Recordation Form Cover Sheet (PTO-1595) and the
