Description: The National Compensation Survey (NCS) is an ongoing survey of earnings and benefits among private firms, State, and local

government. The NCS resulted from the merger of three surveys: The NCS earnings and work level data (formerly the Occupational Compensation Survey Program), the Employment Cost Index, and the Employee Benefits Survey. Data from these surveys are critical for setting Federal white-collar salaries, determining monetary policy (as a

Principal Federal Economic Indicator), and for compensation administrators and researchers in the private sector.

The survey will collect data from a sample of employers. These data will consist of information about the duties, responsibilities, and compensation (earnings and benefits) for a sample of occupations for each sampled employer.

Data will be updated on either an annual or quarterly basis. The updates will allow for production of data on change in earnings and total compensation.

Departmental Clearance Officer.

SUPPLEMENTARY INFORMATION:

I. Background

Section 3304(a)(9)(B), of the Internal Revenue Code (IRC) of 1986, requires states to participate in an arrangement for combining employment and wages covered under the different state laws for the purpose of determining unemployed workers' entitlement to unemployment compensation. The Interstate Arrangement for Combining Employment and Wages for combined wage claims (CWC), promulgated at 20 CFR part 616, requires the prompt transfer of all available employment and wages between states upon request. The Benefit Payment Promptness Standard, 20 CFR 640, requires the prompt payment of unemployment compensation including benefits paid under the CWC arrangement. The ETA 586 report provides the ETA/Office of Workforce Security with information necessary to measure the scope and effect of the CWC program and monitor the performance of each state in responding to wage transfer requests and the payment of benefits.

II. Desired Focus of Comments

Currently, the Department of Labor is soliciting comments concerning the proposed extension of the report for the Interstate Arrangement for Combining Employment and Wages, ETA 586. The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
