

Decree in *United States v. Chief Consolidated Mining Company, et. al.*, an action under Sections 107 and 113 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (“CERCLA”), as amended, 42 U.S.C. 9607 and 9613, was lodged with the United States District Court for the District of Utah, Case No. 2:04CV00891 BSJ.

In this action, the United States sought the recovery of costs incurred and to be incurred by the United States in response to releases or threatened releases of hazardous substances at and from the Eureka Mills NPL Site located in Eureka, Utah (the “Site”). The United States alleged that the Chief Consolidated Mining Company (“Chief”) was liable under CERCLA Section 107(a)(1) and (2), 42 U.S.C. 9607(a)(1) and (2), as a past owner and operator of a portion of the Site at the time of disposal and as a present owner of a portion of the Site upon which hazardous substances have been released, for those response costs set forth in CERCLA Section 107(a)(4)(A)–(D), 42 U.S.C. 9607(a)(4)(A)–(D).

The Chief settlement is based on the company’s limited financial resources and contains a confession of judgment in favor of EPA in the amount of sixty million dollars (\$60,000,000.00) which may be satisfied through the sale of Chief real estate holdings together with future profits, if any, and the proceeds from any insurance recovery. Additionally, the Chief Decree provides for various in-kind contributions of materials like clean water and soil necessary to implement the clean up and allows EPA to construct permanent repositories to contain contaminated soils on Chief’s property.
