Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board Task Force on Identification Technologies will meet in closed session on November 4-5, 2004, at Strategic Analysis Inc., 3601 Wilson Boulevard, Arlington, VA. The Task Force will assess current technologies and operational concepts to identify and track individuals and materiel.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. In this assessment, the task force's investigation will encompass defense, intelligence, and commercial systems, including compartmented technology in development and promising technologies in the lab that are not yet deployed. Technologies will include passive/active, line of sight/non-line of

sight, and cooperative/non-cooperative. Potential mechanisms include predictive behavior modeling based on threat characteristics (attack modality, ideological makeup, social, ethnic, religious and political tendencies, etc.), identification technologies such as biometrics (iris scans, facial features, voice prints, etc.), DNA matching, and advanced non-identification technologies such as EO, RF, hyperspectral, and fluid surface assembly (FSA) sensors.

In accordance with Section 10(d) of the Federal Advisory Committee Act, P.L. No. 92-463, as amended (5 U.S.C. App. 2), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Dated: October 8, 2004.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board Task Force on Red Lessons Learned will meet in closed session on October 22, 2004, at SAIC, 4001 N. Fairfax Drive, Arlington, VA. This Task Force will assess what useful information can our adversaries learn from U.S. military engagement and, particularly, what might they have learned from Operation Iraqi Freedom and Operation Enduring Freedom; identify the channels through which adversaries learn about U.S. capabilities; is there any evidence an adversary is adjusting to U.S. capabilities and what might the U.S. do to counter this; what are the indicators or observables that the Intelligence Community can focus on to determine if an adversary is engaging in this type of practice and do the indicators change in peacetime or wartime; do different technology insertion models exist; is there any evidence potential adversaries are targeting the seams in the U.S. command and control alignment and planning process; and the preceding areas of concern focus primarily on the military operations phases, are the potential adversaries observing,

analyzing and adapting during the preparation and stabilization phase?

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense.
