[File No. 1-32318]

Issuer Delisting; Notice of Application of Devon Energy Corporation To Withdraw Its Common Stock, \$.10 Par Value, From Listing and Registration on the American Stock Exchange LLC

October 18, 2004.

On October 8, 2004, Devon Energy Corporation, a Delaware corporation ("Issuer") filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 12d2-2(d) thereunder,² to withdraw its common stock, \$.10 par value, ("Security"), from listing and registration on the American Stock Exchange LLC ("Amex" or "Exchange").

The Board of Directors ("Board") of the Issuer unanimously approved a resolution on September 27, 2004 to withdraw the Issuer's Security from listing on the Amex and to list on the New York Stock Exchange, Inc. ("NYSE"). The Board states that following reasons factored into its decision to withdraw the Issuer's Security from the Exchange: (i) To avoid the direct and indirect costs of, and the division of the market resulting from, dual listing on the Amex and the NYSE; and (ii) it was in the best interest of the Issuer to withdraw its Security from the Amex and list on the NYSE. The Issuer states that the Security ceased trading on the Amex at the close of business on October 11, 2004 and commence trading on the NYSE on October 12, 2004.

The Issuer stated in its application that it has complied with all the applicable laws in effect in Delaware, in which it is incorporated, and with the Amex's rules governing an issuer's voluntary withdrawal of a security from listing and registration.

The Issuer's application relates solely to the Security's withdrawal from listing on the Amex and from registration under Section 12(b) of the Act,³ and shall not affect its obligation to be registered under Section 12(g) of the Act.⁴

Any interested person may, on or before November 12, 2004, comment on the facts bearing upon whether the application has been made in accordance with the rules of the Amex, and what terms, if any, should be imposed by the Commission for the

protection of investors. All comment letters may be submitted by either of the following methods:

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-50545; File No. SR-NASD-2004-114]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Order Approving Proposed Rule Change, as Amended, Relating to Fees for Depth of Book Data in Exchange-Listed Securities in the Nasdaq Market Center

October 14, 2004.

On July 26, 2004, the National Association of Securities Dealers, Inc. ("NASD"), through its subsidiary, The Nasdaq Stock Market, Inc. ("Nasdaq"),

filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to establish a monthly per-controlled device fee for depth of book information for exchange-listed securities in the Nasdaq Market Center. On August 24, 2004, Nasdaq filed Amendment No. 1 to the proposed rule change.³ The proposed rule change, as amended, was published for comment in the **Federal Register** on September 9, 2004.⁴ The Commission received no comment letters on the proposal, as amended. On October 6, 2004,⁵ Nasdaq submitted Amendment No. 2 to the proposed rule change. This order approves the proposed rule change, as amended.

The Commission finds that the proposed rule change, as amended, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association.⁶ In particular, the Commission believes that the proposal is consistent with Section 15A(b)(5) of the Act,⁷ which requires, among other things, that the rules of an association provide for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which an association operates or controls.

Specifically, the Commission believes that Nasdaq's dissemination of multiple levels of firm quotes/orders in exchange-listed securities should increase the market information available to market participants. The Commission believes the proposed fee is reasonable in that Nasdaq represents that the \$6 monthly fee is based on anticipated message traffic through its new data feed, OpenView, in relation to the message traffic amounts and prices

("PCX" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Obligations of Market Makers

- RULE 6.37. (a)—No Change.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to substantially relax the quotation spread requirements on options designated by the Exchange that trade on the Exchange's electronic trading platform, PCX Plus. Currently, the PCX's rules contain maximum quotation spread requirements that vary from \$.25 to \$1, depending on the price of the option. Each PCX market maker independently is subject to these requirements. According to the PCX, while the primary purpose of the spread requirements is to help maintain narrow spreads, the spread requirements also result in individual market makers sometimes quoting at prices that they believe are unnecessarily narrow, potentially exposing them to greater risk if markets move quickly. The PCX believes that, due to the market making system in PCX Plus, the quotation spread requirements may not be necessary to ensure tight and competitive quotations on the PCX.

In this regard, the PCX states that the market structure in PCX Plus creates strong incentives for competing market makers and other market participants to disseminate competitive prices. In PCX Plus, each market maker quotes independently and customers and professional traders can enter limit orders on the PCX's book. The PCX automatically collects this trading interest, calculates the PCX best bid and offer ("BBO"), and disseminates the BBO to the investing public.

Furthermore, the PCX allocates trading interest on PCX Plus based upon the price and size of the interest. Under the PCX's trading algorithm, the PCX allocates volume to trading interest at the best price. The larger the size of a person's quote or order at the best price, the more trading interest that person

³ In a telephone call, the PCX agreed to a minor change clarifying that the Exchange is not proposing to amend Commentaries .01 through .09 of PCX Rule 6.37. Telephone conversation between Steven B.
