

Test Procedures relating to the design and testing of insulated power and telecommunications cables. These cables are used for power, control, data and voice communications. Electric utilities, telecommunications companies, government agencies and end users use these standards for the specification and purchase of insulated cables used throughout North America. These standards receive American National Standards Institute (ANSI) approval and are the American Standard.

#### **Notice Pursuant to the National Cooperative Research and Production Act of 1993—International Association of Association Management Companies, Inc.**

Notice is hereby given that, on September 15, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), International Association of Association Management Companies, Inc. ("IAAMC") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: International Association of Association Management Companies, Inc., Westmont, IL. The nature and scope of IAAMC's standards development activities are: Internal quality systems and best practices for association management companies.

#### **Notice Pursuant to the National Cooperative Research and Production Act of 1993—International Multimedia Telecommunications Consortium**

Notice is hereby given that, on September 20, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), International Multimedia Telecommunications Consortium ("IMTC") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: International Multimedia Telecommunications Consortium, San Ramon, CA. The nature and scope of IMTC's standards development activities are: To advocate the common interests of the industry through education and promotion; to be an unbiased source of information to end users, press, industry analysts, legislators, regulators, and the industry; to identify obstacles to the growth and success of the industry, and to implement or recommend solutions; to develop and advocate requirements to standards-making organizations; and to promote and facilitate interoperability testing of real-time Multimedia Telecommunications products and services.

#### **Notice Pursuant to the National Cooperative Research and Production Act of 1993—JEDEC Solid State Technology Association**

Notice is hereby given that, on September 15, 2004, pursuant to section 6(a) of the National Cooperative

Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("Act"), JEDEC Solid State Technology Association ("JEDEC") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: JEDEC Solid State Technology Association, Arlington, VA. The nature and scope of JEDEC's standards development activities are: To promote, develop, and coordinate open voluntary consensus standardization of terms, definitions, product characterization and operation, test methods, manufacturing support functions, product quality and reliability, mechanical outlines, solid state memories, and wireless interface networking systems. Technical and informational exchanges may take place directly between committees and their correspondents. It is a primary function of each committee to propose JEDEC standards and to formulate policies, procedures, formats, and other documents.
