

opportunities be managed while protecting bears and their habitats.

This draft conservation plan identifies and evaluates four alternatives for managing the Kodiak Refuge for the next 15 years. These alternatives follow the same general management direction but provide different ways of addressing the issues.

Alternative A: Current Management: Management of the Refuge would continue to follow the 1987 conservation plan and record of decision as modified by subsequent step-down plans, including fisheries and public use management plans. Private and commercial uses of the refuge would continue at current levels. Refuge management would continue to reflect existing laws, executive orders, regulations, and policies governing Service administration and operation of the National Wildlife Refuge System. Regulations would be adopted to seasonally limit all public use (commercial users are restricted by stipulations placed on their special use permits) of nine bear-concentration areas; to close two bear-denning areas to snowmachine use; and to restrict camping near public use cabins and administrative facilities. Seven existing public use cabins would be maintained, two additional cabins would be constructed, and cabins on newly acquired lands would be managed for public use, if located on appropriate sites. Impacts at heavily used camping areas would be managed by restricting use through regulations. The seasonal closure to all users at O'Malley River would continue with no formal bear-viewing program. Refuge lands would continue to be managed under Moderate (44,627 acres) and Minimal (1,578,700 acres) management categories, with Special River Management as an option for rivers receiving higher levels of public use.

Alternative B: Much of the general management direction in Alternative A would continue, although some specific directions and actions occurring under current management would be altered or not pursued under this alternative. Clearer goals and objectives for increasing our knowledge of wildlife and habitat needs and relationships would be established. Public use monitoring would facilitate wildlife-dependent recreation, subsistence, and other traditional uses. None of the regulations proposed in Alternative A would be promulgated; voluntary guidelines for public use of bear-concentration areas would be developed. These guidelines would replace use restrictions on special use permits issued to commercial users. The

number of public use cabins would be allowed to expand as demand increases, either by constructing new cabins or by managing cabins on newly acquired lands for public use. Food storage containers, latrines, temporary electric fences, and other minor improvements could be provided if needed at popular camping areas to reduce impacts. The O'Malley River closure would be modified to allow a guide operating under a refuge special use permit to operate a formal bear-viewing program. The permit would be awarded competitively. Refuge lands would continue to be managed in Moderate and Minimal management categories as in Alternative A. The Special River Management category would be eliminated.

Alternative C: Much of the general management direction in Alternative A would continue, although some specific directions and actions occurring under current management would be altered or not pursued in this alternative. As with Alternative B, clearer goals and objectives for increasing our knowledge of wildlife and habitat needs and relationships would be established. Public use monitoring would facilitate wildlife-dependent recreation, subsistence, and other traditional uses. Voluntary guidelines for public use of bear-concentration areas would be developed. These guidelines would replace use restrictions on special use permits issued to commercial users. Seasonal closure or day-use-only restrictions could be proposed for some bear-concentration areas, based on, on-going evaluation of the effectiveness of voluntary use guidelines in these areas. Two bear-denning area would be phased out over time. Impacts at heavily used camping areas would be managed by restricting use through regulations. Regulations would be adopted to restrict camping near public use cabins and administrative facilities. The O'Malley River closure would be modified to allow the Service, in cooperation with the Alaska Department of Fish and Game, to operate a formal bear-viewing program. Bear-viewing permits would be awarded to individuals by lottery. The Moderate Management category would be reduced by 11,192 acres; the acreage in Minimal Management would increase by an equivalent amount. The Special River Management category would be eliminated.

Alternative D: Preferred Alternative: Much of the general management direction in Alternative A would continue, although some specific directions and actions occurring under current management would be altered or not pursued in this alternative. As in

Alternatives B and C, clearer goals and objectives for increasing our knowledge of wildlife and habitat needs and relationships would be established. Public use monitoring would facilitate wildlife-dependent recreation, subsistence, and other traditional uses. Voluntary guidelines for public use of bear-concentration areas would be developed. These guidelines would replace use restrictions on special use permits issued to commercial users. Day-use-only restrictions could be proposed for some bear-concentration areas based on, on-going evaluation of the effectiveness of voluntary use guidelines in these areas. One bear-denning area would be closed to snowmachine use by regulation. Seven public use cabins would be maintained, two additional cabins would be constructed, and cabins on newly acquired land would be managed for public use, if located on appropriate sites. Regulations would be adopted to restrict camping near public use cabins and administrative facilities. Food-storage containers, latrines, temporary electric fences, and other minor improvements could be provided if needed at popular camping areas to reduce impacts. The O'Malley River closure would be modified to allow a formal bear-viewing program combining agency-supervised use (allocated to the public by lottery) with guided use (offered to the public by qualified guides selected through a competitive process and operating under a Refuge special use permit). The Moderate Management category would be reduced by 30,946 acres; the acreage in Minimal Management would increase by an equivalent amount. The Special River Management category would be eliminated.

Dated: October 13, 2004.

Notice of Public Comment Deadline Extension; Correction

AGENCY: Bureau of Land Management, Interior; Forest Service, Agriculture.

ACTION: Notice; correction.

SUMMARY: The Bureau of Land Management and Forest Service published a notice of public comment

deadline extension in the **Federal Register** of August 20, 2004. The document contained an incorrect date.

Correction

In the **Federal Register** of August 20, 2004, FR Vol. 69, No. 161, on page 51709, in the first column, under **SUPPLEMENTARY INFORMATION**, correct the first sentence in the last paragraph to read:

Written public comments will be accepted until November 30, 2004, and can also be mailed to Northern San Juan Basin CBM EIS, USDA FS Content Analysis Team, PO Box 221150, Salt Lake City, UT 84122.

FOR FURTHER INFORMATION CONTACT: Ann Bond, San Juan Public Lands Center, 15 Burnett Court, Durango, Colorado 81301. Phone (970) 385-1219.

Dated: October 18, 2004.

Mark W. Stiles,

San Juan Public Lands Center Manager.

Public Land Order No. 7619; Withdrawal of Public Land for the Paradise Peak Mine Site Reclamation; Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order withdraws 1,894.88 acres of public land from surface entry and mining, for a period of 10 years, for the Bureau of Land Management to protect public health and safety, as well as the reclamation efforts of land contaminated by previous mining operations at the Paradise Peak Mine Site.

DATES: Effective October 25, 2004.

FOR FURTHER INFORMATION CONTACT: Dennis J. Samuelson, BLM Nevada State Office, P.O. Box 12000, Reno, Nevada 89520, 775-861-6532.

Order

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (2000), it is ordered as follows:

1. Subject to valid existing rights, the following described public land is hereby withdrawn from settlement, sale, location, or entry under the general land laws, including the United States

mining laws (30 U.S.C. Ch. 2 (2000)), but not from leasing under the mineral leasing laws, for the Bureau of Land Management to protect public health and safety, as well as the reclamation efforts of land contaminated by previous mining operations at the Paradise Peak Mine Site:

BILLING CODE 4310-HC-P

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Agency Information Collection Activities: Submitted for Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of an extension of a currently approved information collection (OMB Control Number 1010-0061).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), we are notifying the public that we have submitted to OMB an information collection request (ICR) to renew approval of the paperwork requirements in the regulations under 30 CFR Part 206, Subpart B—Indian Oil. This notice also provides the public a second opportunity to comment on the paperwork burden of these regulatory requirements. We changed the title of this ICR to clarify the regulatory language we are covering under 30 CFR Part 206. The previous title was "Oil Transportation Allowances." The new title is "30 CFR Part 206, Subpart B—Indian Oil, § 206.55—Determination of Transportation Allowances (Form MMS-4110, Oil Transportation Allowance Report)."

DATES: Submit written comments on or before November 24, 2004.

ADDRESSES: Submit written comments by either fax (202) 395-6566 or e-mail (*OIRA_Docket@omb.eop.gov*) directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (OMB Control Number 1010-0061). Mail or hand-carry a copy of your comments to Sharron L. Gebhardt, Lead Regulatory Specialist, Minerals Management Service, Minerals Revenue Management, P.O. Box 25165, MS 302B2, Denver, Colorado 80225. If you use an overnight courier service, our courier address is Building 85, Room A-614, Denver Federal Center, Denver, Colorado 80225. You may also e-mail your comments to us at *mrm.comments@mms.gov*. Include the title of the information collection and the OMB Control Number in the "Attention" line of your comment. Also include your name and return address. Submit electronic comments as an ASCII file avoiding the use of special characters and any form of encryption. If you do not receive a confirmation that we have received your e-mail, contact Ms. Gebhardt at (303) 231-3211.

FOR FURTHER INFORMATION CONTACT: Sharron L. Gebhardt, telephone (303)
