

by the ratio of the national average wage index for 2003 to that for 1998; or (2) such amount for 2004. In either case, if the resulting amount is not a multiple of \$10, it shall be rounded to the nearest multiple of \$10.

SGA Amount for Statutorily Blind Individuals

Multiplying the 1994 monthly SGA amount for statutorily blind individuals (\$930) by the ratio of the national average wage index for 2003 (\$34,064.95) to that for 1992 (\$22,935.42) produces the amount of \$1,381.29. We then round this amount to \$1,380. Because \$1,380 is larger than the current amount of \$1,350, the monthly SGA amount for statutorily blind individuals is \$1,380 for 2005.

SGA Amount for Non-Blind Disabled Individuals

Multiplying the 2000 monthly SGA amount for non-blind individuals (\$700) by the ratio of the national average wage index for 2003 (\$34,064.95) to that for 1998 (\$28,861.44) produces the amount of \$826.20. We then round this amount to \$830. Because \$830 is larger than the current amount of \$810, the monthly SGA amount for non-blind disabled individuals is \$830 for 2005.

Trial Work Period Earnings Threshold

General

During a trial work period, a beneficiary receiving Social Security disability benefits may test his or her ability to work and still be considered disabled. We do not consider services performed during the trial work period as showing that the disability has ended until services have been performed in at least 9 months (not necessarily consecutive) in a rolling 60-month period. In 2004, any month in which earnings exceed \$580 is considered a month of services for an individual's trial work period. In 2005, this monthly amount increases to \$590.

Computation

The method used to determine the new amount is set forth in our regulations at 20 CFR 404.1592(b). Monthly earnings in 2005, used to determine whether a month is part of a trial work period, is such amount for 2001 (\$530) multiplied by the ratio of the national average wage index for 2003 to that for 1999, or, if larger, such amount for 2004. If the amount so calculated is not a multiple of \$10, we round it to the nearest multiple of \$10.

Amount

Multiplying the 2001 monthly earnings threshold (\$530) by the ratio of

the national average wage index for 2003 (\$34,064.95) to that for 1999 (\$30,469.84) produces the amount of \$592.53. We then round this amount to \$590. Because \$590 is larger than the current amount of \$580, the monthly earnings threshold is \$590 for 2005.

Domestic Employee Coverage Threshold

General

The minimum amount a domestic worker must earn so that such earnings are covered under Social Security or Medicare is the domestic employee coverage threshold. For 2005, this threshold is \$1,400. Section 3121(x) of the Internal Revenue Code provides the formula for increasing the threshold.

Computation

Under the formula, the domestic employee coverage threshold amount for 2005 shall be equal to the 1995 amount of \$1,000 multiplied by the ratio of the national average wage index for 2003 to that for 1993. If the resulting amount is not a multiple of \$100, it shall be rounded to the next lower multiple of \$100.

Domestic Employee Coverage Threshold Amount

Multiplying the 1995 domestic employee coverage threshold amount (\$1,000) by the ratio of the national average wage index for 2003 (\$34,064.95) to that for 1993 (\$23,132.67) produces the amount of \$1,472.59. We then round this amount to \$1,400. Accordingly, the domestic employee coverage threshold amount is \$1,400 for 2005.

Election Worker Coverage Threshold

General

The minimum amount an election worker must earn so that such earnings are covered under Social Security or Medicare is the election worker coverage threshold. For 2005, this threshold is \$1,200. Section 218(c)(8)(B) of the Act provides the formula for increasing the threshold.

Computation

Under the formula, the election worker coverage threshold amount for 2005 shall be equal to the 1999 amount of \$1,000 multiplied by the ratio of the national average wage index for 2003 to that for 1997. If the amount so determined is not a multiple of \$100, it shall be rounded to the nearest multiple of \$100.

Election Worker Coverage Threshold Amount

Multiplying the 1999 election worker coverage threshold amount (\$1,000) by the ratio of the national average wage index for 2003 (\$34,064.95) to that for 1997 (\$27,426.00) produces the amount of \$1,242.07. We then round this amount to \$1,200. Accordingly, the election worker coverage threshold amount is \$1,200 for 2005.
