

used by managers to maintain an automated database of reviewers for the many disciplines represented by the proposals submitted to the Foundation. Information collected on gender, race, and ethnicity is used in meeting NSF needs for data to permit response to Congressional and other queries into equity issues. These data also are used in the design, implementation, and monitoring of NSF efforts to increase the participation of various groups in science, engineering, and education.

Confidentiality

When a decision has been made (whether an award or a declination), verbatim copies of reviews, excluding the names of the reviewers, and summaries of review panel deliberations, if any, are provided to the PI. A proposer also may request and obtain any other releasable material in NSF's file on their proposal. Everything in the file except information that directly identifies either reviewers or other pending or declined proposals is usually releasable to the proposer.

While listings of panelists' names are released, the names of individual reviewers, associated with individual proposals, are not released to anyone.

Because the Foundation is committed to monitoring and identifying any real or apparent inequities based on gender, race, ethnicity, or disability of the proposed principal investigator(s)/ project director(s) or the co-principal investigator(s)/co-project director(s), the Foundation also collects information regarding race, ethnicity, disability, and gender. This information also is protected by the Privacy Act.

Burden on the Public

The Foundation estimates that anywhere from one hour to twenty hours may be required to review a proposal. It is estimated that approximately five hours are required to review an average proposal. Each proposal receives an average of 6.3 reviews, with a minimum requirement of three reviews. The estimated burden for the Reviewer Background Information (NSF 428A) is estimated at 5 minutes per respondent with up to 10,000 potential new reviewers for a total of 83 hours. The aggregate estimated total is 600,083 for the reviewer process and the reviewer background information.

Dated: October 22, 2004.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-11]

Sacramento Municipal Utility District, Rancho Seco Independent Spent Fuel Storage Installation; Notice of Docketing of Materials License SNM-2510; Application for an Exemption and for a Conforming Amendment

By letter dated July 19, 2004, Sacramento Municipal Utility District (SMUD or the licensee) submitted an application to the Nuclear Regulatory Commission (NRC or the Commission) requesting an exemption from the requirements of Title 10 of the Code of Federal Regulations (10 CFR) 72.44(d)(3) pursuant to 10 CFR 72.7 and also requesting a conforming amendment to the Rancho Seco Independent Spent Fuel Storage Installation (ISFSI) technical specifications pursuant to 10 CFR 72.56.

The licensee is requesting Commission approval to be relieved from submitting an annual report to the Commission specifying the quantity of principal radionuclides released to the environment in liquid and gaseous effluent during the previous 12 months of the Rancho Seco ISFSI operation. The licensee is currently storing spent fuel at the Rancho Seco ISFSI on the site of the Rancho Seco Nuclear Generating Station located in Sacramento County, California under license SNM-2510. If the exemption is granted, then as further requested by the licensee, upon approval of the Commission, the Rancho Seco ISFSI license, SNM-2510, would be amended to remove this requirement from the technical specifications.

This application was docketed under 10 CFR part 72; the ISFSI Docket No. is 72-11 and will remain the same for this action.

In accordance with the requirement of 10 CFR 51.21, NRC will perform an environmental assessment of the potential environmental impacts of this exemption request. The exemption (in conjunction with the conforming license amendment) is subject to the Commission's approval.

If the Commission grants the requested exemption, the Commission may issue either a notice of hearing or a notice of proposed action and opportunity for hearing in accordance with 10 CFR 72.46(b)(1) regarding the proposed amendment or, if a determination is made that the proposed amendment does not present a genuine issue as to whether public health and safety will be significantly affected, take immediate action on the proposed amendment in accordance with 10 CFR

72.46(b)(2) and provide notice of the action taken and an opportunity for interested persons to request a hearing on whether the action (conforming amendment) should be rescinded or modified.

For further details with respect to this amendment, see the application dated July 19, 2004, which is publicly available in the records component of NRC's Agencywide Documents Access and Management System (ADAMS). The NRC maintains ADAMS, which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 15th day of October 2004.

For the Nuclear Regulatory Commission.

Amy M. Snyder,

Project Manager, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-11]

Sacramento Municipal Utility District, Rancho Seco Independent Spent Fuel Storage Installation; Notice of Docketing of Materials License SNM-2510; Amendment Application

By letter dated July 29, 2004, Sacramento Municipal Utility District (SMUD or licensee) submitted an application to the U.S. Nuclear Regulatory Commission (NRC or the Commission), in accordance with Title 10 of the Code of Federal Regulations (10 CFR) 72.56, requesting the amendment of the Rancho Seco Independent Spent Fuel Storage Installation (ISFSI) license. SMUD is requesting Commission approval to allow for the storage of Greater than Class C (GTCC) waste at the Rancho Seco ISFSI located on the site of the Rancho Seco Nuclear Generating Station located in Sacramento County, California.

This application was docketed under 10 CFR part 72; the ISFSI Docket No. is 72-11 and will remain the same for this action. Upon approval of the
