

Unless a request is withdrawn by the registrant within 180 days of publication of this notice, orders will be issued canceling all of these registrations. Users of these pesticides or anyone else desiring the retention of a registration should contact the applicable registrant directly during this 180-day period.

Table 2 of this unit includes the names and addresses of record for all registrants of the products in Table 1 of this unit, in sequence by EPA company number:

TABLE 2.—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION

EPA Company No.	Company Name and Address
241	BASF 3000 Continental Drive - North Mount Olive, NJ 07828-1234

III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before April 25, 2005. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing

stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4). Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a Data-Call-In. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a Special Review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

List of Subjects

Environmental protection, Pesticides and pests.

Dated: October 8, 2004.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2003-0376; FRL-7679-9]

Carbaryl Interim Reregistration Eligibility Decision; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Interim Reregistration Eligibility Decision (IRED) for the N-methyl carbamate pesticide carbaryl, and opens a public comment period on this decision. The Agency's risk assessments and other related documents also are available in

the Carbaryl Docket. Carbaryl is an insecticide registered for use on agricultural crops, ornamentals, and turf (sod farms). Carbaryl is used by the U.S. Department of Agriculture (USDA) for grasshopper control. Carbaryl is also registered for residential use for flea control on pets and for use in homes and gardens. EPA has reviewed carbaryl through the public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

DATES: Comments, identified by docket identification (ID) number OPP-2003-0376, must be received on or before December 27, 2004.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Anthony Britten, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8179; fax number: (703) 308-8005; e-mail address: britten.anthony@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket ID number OPP-2003-0376. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related

to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket ID number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA's electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and

without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the docket will be scanned and placed in EPA's electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

C. How and to Whom Do I Submit Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. Do not use EPA Dockets or e-mail to submit CBI or information protected by statute.

1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your

comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPP-2003-0376. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to opp-docket@epa.gov, Attention: Docket ID Number OPP-2003-0376. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in Unit I.C.2. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By mail.* Send your comments to: Public Information and Records Integrity Branch (PIRIB) (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001, Attention: Docket ID Number OPP-2003-0376.

3. *By hand delivery or courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA, Attention: Docket ID Number OPP-2003-0376. Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.B.1.

D. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket

or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at your estimate.
5. Provide specific examples to illustrate your concerns.
6. Offer alternatives.
7. Make sure to submit your comments by the comment period deadline identified.
8. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA completed an IRED for the N-methyl carbamate pesticide

carbaryl on June 30, 2003, and is now issuing this document for public comment. Carbaryl is an insecticide registered for use on agricultural crops, sod, and for residential use on pets and in homes and gardens. Carbaryl is also used by USDA for grasshopper control. The Carbaryl IRED presents the Agency's conclusions on the risks posed by exposure to carbaryl alone; however, section 408(b)(2)(D)(v) of the Federal Food, Drug, and Cosmetic Act (FFDCA) directs the Agency also to consider available information on the cumulative risk from substances sharing a common mechanism of toxicity. Because the N-methyl carbamate pesticides share a common mechanism of toxicity, cholinesterase inhibition, the Agency will evaluate the cumulative risk posed by this group before making final reregistration eligibility decisions on individual N-methyl carbamates.

During the pendency of the carbamate cumulative assessment, the Agency is proceeding with risk assessments and interim risk management for individual carbamate pesticides. EPA has determined that, but for the cumulative risk assessment, the data base to support carbaryl reregistration is substantially complete and that products containing carbaryl will be eligible for reregistration, provided the risks are mitigated in the manner described in the IRED. Upon submission of any required product specific data under section 4(g)(2)(B) of FIFRA and any necessary changes to the registration and labeling (either to address concerns identified in the IRED or as a result of product specific data), and after assessing N-methyl carbamate cumulative risks, EPA will make a final reregistration decision under section 4(g)(2)(C) of FIFRA for products containing carbaryl. When the Agency finalizes decisions for carbaryl and other N-methyl carbamate pesticides, further risk mitigation may be required for carbaryl.

Although the Carbaryl IRED was signed on June 30, 2003, certain components of the document, which did not affect the final regulatory decision, were undergoing final editing at that time. These components, including the list of additional generic data requirements, summary of labeling changes, appendices, and other relevant information, have been added to the Carbaryl IRED document. In addition, subsequent to signature, EPA identified several minor errors and ambiguities in the document. Therefore, for the sake of accuracy, EPA also has included the appropriate error corrections, amendments, and clarifications. All of these changes are described in detail in

an errata memorandum which is included in the public docket for carbaryl.

Following signature of the IRED, EPA received new pharmacokinetic data from BayerCrop Science to refine the risk estimates from residential lawn broadcast applications of carbaryl liquid formulations. They also submitted a proposed method for using the data in a deterministic calculation of the risks. EPA is planning to seek independent scientific review of this information through a Scientific Advisory Panel meeting in December 2004. The new data and EPA's preliminary review of the data are included in the docket also.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes the need both to make timely reregistration decisions and to involve the public in finding ways to effectively mitigate pesticide risks. Through the Agency's public participation process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for carbaryl. The Agency is issuing the carbaryl IRED for public comment. The comment period is intended to provide an additional opportunity for public input and a mechanism for initiating any necessary amendments to the IRED. All comments should be submitted using the methods in Unit I. of the **SUPPLEMENTARY INFORMATION**, and must be received by EPA on or before the closing date. These comments will become part of the Agency docket for carbaryl. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date. If any comment significantly affects the document, EPA will publish an amendment to the IRED in the **Federal Register**. In the absence of substantive comments requiring changes, the risk management decisions reflected in the carbaryl IRED will be implemented without further notice. These decisions may be supplemented by further risk mitigation measures when EPA considers its cumulative assessment of the N-methyl carbamate pesticides.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended in 1988 and 1996, directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product

specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Section 408(q) of FFDCA, 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[OPP2004-0338: FRL-7683-7]

Cancellation of Pesticides for Non-payment of Year 2004 Registration Maintenance Fees

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Since the amendments of October, 1988, the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) has required payment of an annual maintenance fee to keep pesticide registrations in effect. The fee due last January 15 has gone unpaid for 1,177 registrations. Section 4(i)(5)(G) of FIFRA provides that the Administrator may cancel these registrations by order and without a hearing; orders to cancel all 1,177 of these registrations have been issued within the past few days.

FOR FURTHER INFORMATION CONTACT: For further information on the maintenance fee program in general, contact by mail: John Jamula, Office of Pesticide Programs (7504C), Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460; telephone number: (703) 305-6426; e-mail address: jamula.john@epa.gov

SUPPLEMENTARY INFORMATION:

I. Important Information

A. Does this apply to me?

You may be potentially affected by this notice if you are an EPA registrant with any approved product

registration(s). Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

B. How can I get additional information or copies of support documents

1. *Electronically.* You may obtain electronic copies of this document and various other related documents that might be available from the EPA Internet Home Page at <http://www.epa.gov/fedrgstr/>.

The Agency has established an official record for this Action under docket control number OPP-2004-0338. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as Confidential Business Information (CBI). The official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information that is claimed as CBI. The public version of the official record, which includes printed paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Room 119, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305-5805.

II. Introduction

Section 4(i)(5) of FIFRA as amended in October, 1988 (Public Law 100-532), December, 1991 (Public Law 102-237), and again in August, 1996 (Public Law 104-170), requires that all pesticide registrants pay an annual registration maintenance fee, due by January 15 of each year, to keep their registrations in effect. This requirement applies to all registrations granted under section 3 as well as those granted under section 24(c) to meet special local needs. Registrations for which the fee is not paid are subject to cancellation by order and without a hearing.

The Food, Agriculture, Conservation, and Trade Act Amendments of 1991, Public Law 102-237, amended FIFRA to allow the Administrator to reduce or waive maintenance fees for minor

agricultural use pesticides when she determines that the fee would be likely to cause significant impact on the availability of the pesticide for the use. The Agency has waived the fee for 149 minor agricultural use registrations at the request of the registrants.

In fiscal year 2004, maintenance fees were collected in two billing cycles. During the first cycle, the Agency was operating under a continuing resolution which authorized the Agency to collect \$21.5 million. In late December 2003, all holders of either section 3 registrations or section 24(c) registrations were sent lists of their active registrations, along with forms and instructions for responding. They were asked to identify which of their registrations they wished to maintain in effect, and to calculate and remit the appropriate maintenance fees. Recipients of these initial bills were also notified that a second final bill would also be issued if the Agency's Appropriations Bill authorized collection of more than \$21.5 million. Most responses were received by the statutory deadline of January 15. A notice of intent to cancel was sent in mid-February to companies who did not respond and to companies who responded, but paid for less than all of their registrations.

The Pesticide Registration Improvement Act (PRIA) was passed by Congress in January, 2004. PRIA became effective in March, 2004 and authorized the Agency to collect \$26 million in maintenance fees in fiscal year 2004. To collect the additional \$4.5 million, the Agency initiated a second billing in early May. Final payments were due on June 15, 2004.

Since mailing the notices, EPA has maintained a toll-free inquiry number through which the questions of affected registrants have been answered.

Maintenance fees have been paid for about 15,238 section 3 registrations, or about 94 percent of the registrations on file in December. Fees have been paid for about 2,339 section 24(c) registrations, or about 86 percent of the total on file in December. Cancellations for non-payment of the maintenance fee affect about 883 section 3 registrations and about 294 section 24(c) registrations.

The cancellation orders generally permit registrants to continue to sell and distribute existing stocks of the canceled products until January 15, 2005, one year after the date on which the fee was due. Existing stocks already in the hands of dealers or users, however, can generally be distributed, sold or used legally until they are exhausted. Existing stocks are defined as those stocks of a registered pesticide product
