Public Health Service

National Toxicology Program; The National Toxicology Program (NTP) Center for the Evaluation of Risks to Human Reproduction (CERHR), Announces Availability of Draft Expert Panel Reports on Amphetamines and Methylphenidate and Expert Panel Meeting; Requests Public Comments on the Draft Reports

Summary

The NTP CERHR announces:

(1) The availability of sections 1–4 of the draft expert panel reports for amphetamines and methylphenidate on November 15, 2004. Written public comments on the draft report must be received by December 29, 2004.

(2) The expert panel meeting for amphetamines and methylphenidate will be held on January 10–12, 2005, at the Holiday Inn Old Town Select Alexandria, Virginia. The public is invited to present oral comments at this meeting.

Questions and public comments should be directed to Dr. Michael Shelby, CERHR Director (contact information below).

Draft Expert Panel Reports on Amphetamines and Methylphenidate Available

The CERHR announces the availability of the draft expert panel reports on amphetamines and methylphenidate on November 15, 2004 on the CERHR Web site (<http://cerhr.niehs.nih.gov>) or in printed text from the CERHR (contact information below). Amphetamines and methamphetamine are central nervous system stimulants. Amphetamine is indicated for the treatment of narcolepsy and attention deficit hyperactivity disorder (ADHD), and methamphetamine is indicated for the treatment of ADHD and for short-term treatment of obesity. These chemicals are available for pharmaceutical use as various salts and enantiomer preparations. The most common proprietary amphetamine preparation is Adderall®, a mixture of d- and l-amphetamine salts in a 3:1 ratio. d-Methamphetamine is used in pharmaceutical preparations in the United States and is also manufactured and used as an illicit drug. Methylphenidate (CAS RN 298–59–9) is a central nervous system stimulant approved by the Food and Drug Administration for the treatment of ADHD and narcolepsy in persons six

years and older. d, l-Methylphenidate is marketed under the names Ritalin®, Metadate®, Methylin®, and Concerta®. The d-enantiomer is marketed under the name Focalin™. The CERHR selected amphetamines and methylphenidate for expert panel evaluation because of widespread usage in children, availability of developmental studies in children and experimental animals, and public concern about the effects of these stimulants on child development.

Each draft expert panel report has the following sections:

- 1.0 Chemistry, Use, and Human Exposure
- 2.0 General Toxicological and Biological Effects
- 3.0 Developmental Toxicity Data
- 4.0 Reproductive Toxicity Data
- 5.0 Summary, Conclusions, and Critical Data Needs (to be prepared at expert panel meeting)

Sections 1–4 will be available to the public by the November 15th in PDF format on the CERHR Web site (<http://cerhr.niehs.nih.gov>) or in hard copy or as a PDF file on compact disk by contacting Dr. Michael Shelby, Director CERHR [NIEHS, 79 T.W. Alexander Drive, Building 4401, Room 103, PO Box 12233, MD EC–32, Research Triangle Park, NC 27709, telephone: (919) 541–3455; facsimile: (919) 316–4511; shelby@niehs.nih.gov].

Request for Written Comments on Draft Expert Panel Report

The CERHR (invites written public comments on sections 1–4 of the draft expert panel reports on amphetamines and methylphenidate. Comments can be submitted in hard copy or electronic format and must be received by the CERHR on or before December 29, 2004. Any comments received by this date will be posted on the CERHR Web site prior to the meeting and distributed to the expert panel and CERHR staff for their consideration in revising the draft reports and in preparing for the expert panel meeting. Written comments should be sent to Dr. Michael Shelby at the address provided above. Persons submitting written comments are asked to include their name and contact information (affiliation, mailing address, telephone and facsimile numbers, e-mail, and sponsoring organization, if any).

Expert Panel Meeting Planned

The CERHR will hold an expert panel meeting January 10–12, 2005, at the Holiday Inn Old Town Select 480 King Street, Alexandria, VA 22314 (telephone: 703–549–6080, facsimile: 703–684–6508). The expert panel will review the scientific evidence regarding
