Regulatory History

On May 17, 2004, we published a notice of proposed rulemaking (NPRM) entitled “Drawbridge Operation Regulations; Spa Creek, Annapolis, MD” in the **Federal Register** (69 FR 27870). We received no comments on the proposed rule. No public meeting was requested or held.

Background and Purpose

The City of Annapolis Recreation and Parks Department (the Department) on behalf of Maryland Department of Transportation, who owns and operates the S181 Bridge, requested a change to the operating regulations set out in 33 CFR 117.571.

In accordance with 33 117.37(a) for reason of public safety or for public functions, the District Commander may authorize the opening and closing of a drawbridge for a specified period of time.

Due to the high volume of spectators that attend this annual event, it is necessary to close the draw span to vessels between the hours of 8:30 p.m. to 11 p.m. to help expedite exiting vehicular traffic from the City of Annapolis after the fireworks display. This will reduce vehicular traffic congestion and increase public safety.

Under this rule, the S181 Bridge will be allowed to remain in the closed position to vessels from 8:30 p.m. to 11 p.m. on July 4th, of every year. In the event of inclement weather, the alternate date is July 5th.

Since the Annapolis Fireworks Display is a well-known annual event, and it is publicly advertised, vessel operators can arrange their transits to minimize any impact caused by the closure. Vessels with a mast height less than 15 feet at high water can still
