

- including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:*

Extension of a currently approved collection.

(2) *Title of the Form/Collection:*

Registrants' Inventory of Drugs Surrendered—DEA Form 41.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: DEA Form 41. Office of Diversion Control, Drug Enforcement Administration, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit. Other: Not-for-profit institutions, federal government, state, local or tribal government. Abstract: Title 21 CFR 1307.21 requires that any registrant desiring to voluntarily dispose of controlled substances shall list these controlled substances on DEA Form 41 and submit the form to the nearest DEA office. The DEA Form 41 is used to account for destroyed controlled substances, and its use is mandatory.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* DEA estimates that 22,000 respondents respond annually to this collection, averaging 30 minutes per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* DEA estimates the total public burden for this collection to be 11,000 hours annually.

BILLING CODE 4410-09-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Apple Jacks Coal Company, Inc.

[Docket No. M-2004-043-C]

Apple Jacks Coal Company, Inc., Box 584, North Tazewell, Virginia 24630 has filed a petition to modify the application of 30 CFR 75.1710-1 (Canopies and cabs; self-propelled diesel-powered and electric face equipment; installation requirements) to its Mine No. 3 (MSHA I.D. No. 44-06939) located in Dickenson County, Virginia. The petitioner proposes to operate self-propelled electric face equipment without canopies in seam heights of 48 inches or less. The petitioner asserts that application of the existing standard at the Mine No. 3 will result in a diminution of safety to the miners.

2. Maple Creek Mining, Inc.

[Docket No. M-2004-044-C]

Maple Creek Mining, Inc., 981 Route 917, Bentleyville, Pennsylvania 15314 has filed a petition to modify the application of 30 CFR 75.507 (Power connection points) to its High Quality Mine (MSHA I.D. No. 36-08375) located in Washington County, Pennsylvania. The petitioner proposes to use low and medium volt, three phase, alternating current, non-permissible, submersible pump(s) in return and bleeder entries and sealed areas, conditioned upon the specific terms and conditions listed in this petition for modification. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard; pumps will be limited to low or medium voltages; and the pump motor will be maintained under water at all times to isolate it from the mine atmosphere.

3. Consolidation Coal Company

[Docket No. M-2004-045-C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 75.364(b) (Weekly examination) to its Blacksville No. 2 Mine (MSHA I.D. No. 46-01968) located in Monongalia County, West Virginia. The petitioner proposes to establish checkpoints in certain areas of the return aircourse due

to deteriorating roof conditions. The petitioner will establish checkpoints numbers B-CK-10 and B-CK-11 to measure the quantity and quality of air at the inlet to the affected aircourse, and checkpoint number B-CK-12 to measure the quantity and quality of air at the outlet from the affected aircourse. The petitioner states that the checkpoints will be maintained in safe condition at all times; tests for methane and the quantity of air at each checkpoint will be determined weekly by a certified person; and the certified person will place his/her initials and date in a record book that will be kept on the surface and made available for inspection by interested persons. The certified person will also place his/her initials, and date on a date board at the checkpoint sites. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via Federal eRulemaking Portal: <http://www.regulations.gov>; E-mail: Comments@MSHA.gov; Fax: (202) 693-9441; or Regular Mail/Hand Delivery/Courier: Mine Safety and Health Administration, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209. All comments must be postmarked or received in that office on or before December 3, 2004. Copies of these petitions are available for inspection at that address.

Dated at Arlington, Virginia this 28th day of October 2004.

Marvin W. Nichols, Jr.,

Director, Office of Standards, Regulations, and Variances.
