

the public interest * * *²⁶ The MSRB has a long-standing policy to increase price transparency in the municipal securities market, with the ultimate goal of disseminating comprehensive and contemporaneous pricing data. Since 1995, the Board has expanded the scope of its public transparency reports in several steps, and each step has provided industry participants and the public with more information about municipal securities transactions. This process has culminated in the RTRS system. The MSRB also has a long-standing policy of offering low-priced, wholesale information products that are designed to encourage information vendors and other organizations to enhance the data and redistribute it in a format that meets the needs of specific end-users. The MSRB does not intend to operate RTRS for profit, and historically has not attempted to compete with information vendors or other organizations in customizing or enhancing data and marketing products to end-users. This approach has allowed the MSRB to focus on collection of the data rather than on competing with the private sector in packaging and marketing the data. This approach also has allowed the MSRB to keep the costs of its information systems relatively low as part of its objective to maximize the distribution of information, thereby enhancing transparency in the municipal securities market. The MSRB encourages the redistribution of the data obtained through RTRS and believes that achieving the widest possible dissemination of transaction information will help ensure the fairest and most accurate pricing of municipal securities transactions.

B. Self-Regulatory Organization's Statement on Burden on Competition

The MSRB does not believe that the proposed rule change will result in any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to

90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

A. By order approve such proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq has previously proposed to create two new voluntary opening

processes—the Modified Opening Process and the Nasdaq Opening Cross—that together constitute the beginning of the trading day for all Nasdaq-listed securities. The Commission approved that proposal on September 16, 2004.⁷ Through quality control and testing, Nasdaq has identified four minor modifications to the operation and rules governing the Nasdaq Opening Cross and Modified Opening Process that it believes would improve the fair and orderly opening of the market in Nasdaq-listed securities.

First, Nasdaq proposes to open the trading of Nasdaq stocks that have been the subject of a trading halt using the same process by which it will open trading at 9:30 a.m. for Nasdaq stocks that are not designated to participate in the Opening Cross. NASD Rule 4704(c) specifies that the opening process for stocks that are not included in the Opening Cross will begin at 9:30 a.m. Nasdaq inadvertently failed explicitly to permit stocks to open after 9:30 a.m., as can occur when trading has been halted due, for example, to material news or the release of an initial public offering.

Nasdaq believes that the Modified Opening Process (“MOP”), which the Commission has already found to be consistent with the Act should be employed equally for all non-crossing stocks, and that Nasdaq’s rules should explicitly so state. Nasdaq believes that the MOP would improve the opening of trading following a trading halt under NASD Rule 4120. The MOP is designed to create an unlocked and uncrossed bid and offer for the opening of trading, and to execute quotes and orders that would lock or cross the market in a fair and orderly manner. The MOP would work identically and equally well at the open after a trading halt, regardless of whether the halt is initiated under NASD Rule 4120(a)(1), (4), (5), (6), or (7).

Second, Nasdaq proposes to amend the last tie-breaker that will be used to determine the price at which the Nasdaq Opening Cross will occur. In its recently-approved proposal, Nasdaq specified that the Nasdaq Opening Cross would occur at the price that maximizes the number of Market on Open (“MOO”), Limit on Open (“LOO”), Opening Imbalance Only (“OIO”), Early Regular Hours orders, and executable quotes and orders in the Nasdaq Market Center to be executed or, if a tie occurs, the price that minimizes any Imbalance or, if another tie occurs, the price that

⁵ The Commission made the following corrections on Nasdaq’s behalf to the proposed rule text: (1) An internal cross reference in Rule 4704(a)(2)(A)(iii) was corrected; and (2) the current text of Rule 4704(c)(1) was corrected to include omitted punctuation. Telephone conversation between Jeffrey S. Davis, Associate Vice President and Associate General Counsel, Nasdaq, and Ann E. Leddy, Special Counsel, Division of Market Regulation (“Division”), Commission (October 21, 2004).

⁶ The proposed rule change is marked to show changes from the rule text approved by the Commission in Securities Exchange Act Release No. 50405 (September 16, 2004), 69 FR 57118 (September 23, 2004) (SR–NASD–2004–071). This sentence was corrected by the Commission to reflect the fact that the NASD Manual available at www.nasd.com has not been updated to include the rule text for NASD Rule 4704. Telephone conversation between Jeffrey S. Davis, Associate Vice President and Associate General Counsel, Nasdaq, and Ann E. Leddy, Special Counsel, Division, Commission (October 18, 2004).

⁷ See, Securities Exchange Act Release No. 50405 (September 16, 2004), 69 FR 57118 (September 23, 2004) (SR–NASD–2004–071).

minimizes the distance from the previous Nasdaq official closing price.

Nasdaq has determined that referring to the previous official closing price in this manner could produce an unpredictable Opening Cross Price if there is substantial price fluctuation after the previous day's close. Nasdaq has determined that the last Opening Cross tie-breaker should instead be the price that minimizes the distance from the bid-ask midpoint of the inside quotation prevailing at 9:30 a.m. This would minimize price fluctuations and leverage the additional transparency into the opening process that has been created by the Nasdaq Order Imbalance Indicator. Nasdaq believes that this outcome would be consistent with the Act and would serve investors better than the current rule.

Third, Nasdaq proposes to suspend at 9:28 a.m. the cancellation or modification of Regular Hours Orders that are entered into the Nasdaq Market Center. Currently, NASD Rule 4704 defines Regular Hours Orders either as "Early Regular Hours Orders" if entered into the system prior to 9:28 a.m. or as "Late Regular Hours Orders" if entered into the system at 9:28 a.m. or after. The current rule does not address the cancellation or modification of Regular Hours Orders as it does with MOO, LOO, and OIO orders.

In order to preserve the stability and predictability of the Nasdaq Opening Cross, Nasdaq proposes to suspend, as opposed to prohibit, the cancellation or modification of all Regular Hours Orders beginning at 9:28 a.m. As with MOO, LOO, and OIO Orders, the late cancellation or modification of a large Regular Hours Order that would otherwise participate in the Opening Cross could substantially impact the Opening Cross Price, surprising market participants, diminishing market quality and potentially harming investors.

Nasdaq would not prohibit the cancellation or modification of Regular Hours Orders, but rather would suspend the effectiveness of such cancellation and modification requests until after the completion of the Nasdaq Opening Cross. If a Regular Hours Order is not executed in the Nasdaq Opening Cross, the cancellation or modification request would immediately be processed in accordance with its terms and the order modified or returned to the entering party.

Fourth, Nasdaq proposes to modify the process for calculating the Nasdaq Official Opening Price ("NOOP"). Currently, the NOOP is equal to the reported price of the first trade executed by the execution functionality of the Nasdaq Market Center based upon

orders that are in queue when Nasdaq begins trading at 9:30 a.m. ("Opening Match"). If there is no Opening Match within five seconds after the system opens at 9:30 a.m., the NOOP is based upon the first, last sale eligible trade that is submitted to the trade reporting functionality of the Nasdaq Market Center.

Nasdaq proposes to change from five to fifteen seconds the length of time Nasdaq would wait for an Opening Match within Nasdaq's execution functionality before looking for a last sale eligible trade submitted to Nasdaq's trade reporting functionality. Nasdaq believes that this additional ten seconds is needed due to the added time that may elapse while Nasdaq's execution functionality is processing the Nasdaq Opening Cross. In other words, if Nasdaq were to apply the current five-second standard and the Nasdaq's Opening Cross were to take more than five seconds to process, the Opening Cross price would not qualify as the NOOP. If the Opening Cross were to be processed sooner than fifteen seconds or, in the case of non-crossing stocks, the system were to execute a trade sooner than fifteen seconds, the NOOP would be calculated at that time rather than waiting the full fifteen seconds.

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of Section 15A of the Act,⁸ in general, and with Section 15A(b)(6) of the Act,⁹ in particular, in that Section 15A(b)(6) requires, among other things, that a national securities association's rules be designed to protect investors and the public interest. Nasdaq believes that its current proposal is consistent with the NASD's obligations under these provisions of the Act because it would result in a more orderly opening for all Nasdaq stocks. The proposed rule change would create a fair, orderly, and unified opening for Nasdaq stocks, prevent the occurrence of locked and crossed markets in halted securities, and preserve price discovery and transparency that is vital to an effective opening of trading.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change would result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Nasdaq neither solicited nor received written comments with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not:

(i) Significantly affect the protection of investors or the public interest;

(ii) Impose any significant burden on competition; and

(iii) Become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest,¹⁰ it has become effective pursuant to Section 19(b)(3)(A) of the Act¹¹ and Rule 19b-4(f)(6) thereunder.¹² At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Nasdaq has requested that the Commission waive the 30-day operative delay. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because it will allow Nasdaq to conduct its planned testing and roll-out schedule for the modified opening without delay. For this reason, the Commission designates the proposal to be effective and operative upon filing with the Commission.¹³

¹⁰ The Commission revised this section to add the representations on Nasdaq's behalf that the proposed rule change does not significantly affect the protection of investors or the public interest and does not impose any significant burden on competition. Telephone conversation between Jeffrey S. Davis, Associate Vice President and Associate General Counsel, Nasdaq, and Ann E. Leddy, Special Counsel, Division, Commission (October 21, 2004).

¹¹ 15 U.S.C. 78s(b)(3)(A).

¹² 7 CFR 240.19b-4(f)(6). The Commission notes that Nasdaq provided written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change at least five business days prior to the date of filing of the proposed rule change.

¹³ For purposes only of waiving the 30-day operative delay of the proposed rule change, the Commission considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

⁸ 15 U.S.C. 78o-3.

⁹ 15 U.S.C. 78o-3(b)(6).
