

Needs and Uses: This rule section is necessary to require each fixed station in the International Aeronautical Mobile Service (IAMS) to maintain a written or automatic log in accordance with the provisions of the International Civil Aviation Organization (ICAO). This recordkeeping requirement is necessary to document specific information, including harmful interference, equipment failure, and logging of distress and safety calls where applicable. The Commission is seeking extension (no change in rule requirements) to this information collection request. We are simply seeking the full three year OMB clearance.

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

SUMMARY: Notice is hereby given of the final approval of proposed information collection by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the OMB 83-Is and supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

FOR FURTHER INFORMATION CONTACT:

Federal Reserve Board Clearance Officer—Cindy Ayouch—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202-452-3829).

Final approval under OMB delegated authority of the extension for three years, with revision, of the following report:

Report title: Consolidated Bank Holding Company Report of Equity Investments in Nonfinancial Companies.

Agency form number: FR Y-12.

OMB Control number: 7100-0300.

Frequency: Quarterly and semi-annually.

Reporters: Bank holding companies.

Annual reporting hours: 1,696 hours.

Estimated average hours per response: 16 hours.

Number of respondents: 28.

General description of report: This information collection is mandatory pursuant to Section 5(c) of the Bank Holding Company Act (12 U.S.C. 1844(c)) and data may be exempt from disclosure pursuant to Sections (b)(4) and (b)(8) of the Freedom of Information Act (5 U.S.C. 552(b)(4) and (b)(8)).

Abstract: The FR Y-12 was implemented as of September 30, 2001, in response to the Gramm-Leach-Bliley Act (GLB Act) of 1999, which broadened the scope of permissible investments in nonfinancial companies. The FR Y-12 collects information from certain domestic bank holding companies (BHCs) on their investments in nonfinancial companies on three schedules: Type of Investments, Type of Security, and Type of Entity within the Banking Organization. Large BHCs report on a quarterly basis, and small BHCs report semi-annually.

Current Actions: The Federal Reserve will revise the FR Y-12 reporting form and instructions to enhance the Federal Reserve's ability to monitor and supervise the private equity merchant banking (PEMB) activity across all BHCs for purposes of safety and soundness. The revisions to the FR Y-12 include (1) modifying the reporting threshold to reduce regulatory burden; (2) adding a memorandum item to Schedule A to collect data on "Investments managed for others;" (3) adding a memorandum item to Schedule B to identify whether the BHC holds any warrants received in connection with equity investment activity; (4) simplifying Schedule C by eliminating three columns used to collect data on direct investments in public entities, direct investments in nonpublic entities, and all indirect investments; and (5) adding Schedule D "Nonfinancial Investment Transactions During the Reporting Period" to collect information on all PEMB activity of the BHC during the reporting period and to better reflect the industry's focus on monitoring "cash in and cash out." The

Federal Reserve will defer implementation of the revised FR Y-12 until March 31, 2005, to coincide with the implementation of proposed revisions to the FR Y-9C and FR Y-9SP reports (OMB No. 7100-0128).

The Federal Reserve received one comment letter from a banking trade association. The comment is summarized and addressed below.

Addition of Memorandum Item "Investments managed for others"

The Federal Reserve proposed to add a memorandum item to collect information on the extent of the BHC's role in managing private equity investments for others. This item would be used to collect new information on the extent of the institution's PEMB operations. Significant investment funds management activity could increase the inherent legal and reputational risk of the institution.

The commenter opposed the addition of this memorandum item for three reasons. First, the commenter felt the proposed instructions did not adequately define the scope of the item and questioned whether any such investments managed through a BHC's trust, brokerage or mutual fund businesses were to be included. The Federal Reserve clarified the instructions for memorandum item 4 by defining the BHCs management relationship "as serving as a general partner in a limited partnership or performing a similar function in a private equity fund." The Federal Reserve also added an exclusion for investments managed through a bank trust department in a fiduciary capacity. Second, the commenter felt the collection of these data would be burdensome as there is not typically a standard reporting category for such business lines. During the development stage of modifying the FR Y-12, the Federal Reserve consulted with several large BHCs on the proposed addition of this item and concluded from the responses received that this information was readily available for reporting purposes and should not be burdensome. Third, the commenter felt that reporting this item would be outside the scope of the FR Y-12 because the form collects information on the types of investments made by BHCs and their subsidiaries in nonfinancial companies. The Federal Reserve believes that the collection of these data are necessary to accurately and efficiently conduct off-site monitoring of information regarding the extent of the institution's PEMB operation.
