**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*A. Does This Action Apply to Me?*

This action is rulemaking on two revisions to the Wisconsin SIP for the control of NO<sub>x</sub> emissions from stationary sources as required by rule NR 428. The rule applies to existing sources in eight of the counties in the Milwaukee-Racine ozone nonattainment area (Kenosha, Manitowoc, Milwaukee, Ozaukee, Racine, Sheboygan, Washington, and Waukesha counties), and to new sources in six of the eight counties (Kenosha, Milwaukee, Ozaukee, Racine, Washington, and Waukesha).

One revision modifies language to clarify which units are eligible for demonstrating compliance through emissions averaging. The emissions averaging provisions apply only to existing electric utility boilers in the Milwaukee-Racine ozone nonattainment area (Kenosha, Manitowoc, Milwaukee, Ozaukee, Racine, Sheboygan, Washington, and Waukesha counties). The second revision creates a separate NO<sub>x</sub> categorical emission limit for newly installed combustion turbines burning biologically derived gaseous fuel. Sources affected by the new categorical NO<sub>x</sub> limit are landfill operations, wastewater treatment plants and digester facilities specifically designed to generate gaseous fuel. The new NO<sub>x</sub> categorical limit for newly installed combustion turbines burning biologically derived fuel applies only to new sources located in Kenosha, Milwaukee, Ozaukee, Racine, Washington, and Waukesha counties in southeastern Wisconsin. The revisions have been adopted into the State administrative code and became effective on January 1, 2004.
