SUPPLEMENTARY INFORMATION:

Title of Information Collection: FNS-583, Employment and Training Program Activity Report.

OMB Number: 0584-0339.

Expiration Date: June 30, 2005.

Type of Request: Revision of a currently approved collection.

Abstract: 7 CFR 273.7(c)(8) requires State agencies to submit quarterly Employment and Training (E&T) Program Activity Reports containing monthly figures for participation in the program. The Food and Nutrition Service (FNS) uses Form FNS-583 to collect participation data. The information collected on the FNS-583 report includes:

- On the first quarter report, the number of work registrants receiving food stamps as of October 1 of the new fiscal year;
- On each quarterly report, by month, the number of new work registrants; the number of able-bodied adults without dependents (ABAWDs) applicants and recipients participating in qualifying components; the number all other applicants and recipients (including ABAWDs involved in non-qualifying activities participating in components; and the number of ABAWDs exempt under the State agency's 15% exemption allowance.

- On the fourth quarter report, the total number of individuals who participated in each component, which is also sorted by ABAWD and non-ABAWD participants, and the number of individuals who participated in the E&T Program during the fiscal year.

7 CFR 273.7(d)(1)(i)(F) provides that if a State agency will not expend all of the funds allocated to it for a fiscal year, FNS will reallocate unexpended funds to other State agencies during the fiscal year or the subsequent fiscal year as FNS considers appropriate and equitable. After initial E&T allocations are made, State agencies may request more funds, as needed. Typically, FNS receives nine such requests per year. The burden is being revised by adding 10.23 hours to it to account for the time it takes States to prepare these requests. After receiving the State requests FNS will reallocate unexpended funds as provided above. Following is the

revised estimated burden for E&T reporting including the burden for State agencies to request additional funds.

SUPPLEMENTARY INFORMATION:

Title: Emergency Watershed Protection Program.

OMB Number: 0578-0030.

Expiration Date of Approval: March 31, 2005.

Type of Request: To request comments on a currently approved collection for which approval will expire.

Abstract: The primary objective of the Natural Resources Conservation Service (NRCS) is to work in partnership with the American people and the farming and ranching community to conserve and sustain our natural resources. The purpose of Emergency Watershed Protection Program (EWP) information collection is to provide EWP assistance to sponsors to undertake emergency measures to retard runoff and prevent soil erosion to safeguard lives and property from floods, drought, and the products of erosion on any watershed whenever fire, flood, or other natural disaster is causing or has caused a sudden impairment of that watershed.

The sponsor's request is submitted formally as a letter (now the Appendix to the NRCS-PDM-20A) to the NRCS State Conservationist for consideration. The NRCS-PDM-20, Damage Survey Report (DSR), is the Agency decision-making document that includes the economic, social, and environmental evaluation and the engineer's cost estimate.

This information collection allows the responsible Federal official to make EWP eligibility determinations and provide Federal cost-share payments to the sponsor. This request is necessary to implement the EWP Program for which NRCS has statutory authority.

The table below lists the forms in this collection, the uses for each document, and the applicable programs. These forms constitute this information collection and reflect the documents used by EWP sponsors to request participation in the recovery program.

Form number	Form title	OMB number	Program
NRCS-PDM-20	Damage Survey Report	0578-0030	EWP Recovery.
NRCS-PDM-20A	Appendix to the DSR, Request for Participation in the Program	0578-0030	EWP Recovery.

NRCS will ask OMB for 3-year approval within 60 days of submitting the request.

Estimate of Burden: Public reporting burden for this collection of information

is estimated to average 3.5 hours, or 117 minutes, per response.
