

in scope as the Notices of Funds Availability (NOFA) for the grant program published in FY 2003 and FY 2004 and the Agency's current Business and Industry Guaranteed Loan Program forms the basis of the proposed guaranteed loan program, that a 30-day period would be sufficient. The additional 30-day comment period will delay publication of the final rule a commensurate time. The delay in publication will create additional time constraints on applicants. It will also constrain the time for processing the applications, including meeting environmental assessment requirements. RBS is extending the comment period in response to numerous requests from the public for additional time to comment.

Guidance Under Section 951 for Determining Pro Rata Share; Hearing Cancellation

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Cancellation of notice of public hearing on proposed rulemaking.

SUMMARY: This document cancels a public hearing on proposed regulations under section 951(a) of the Internal Revenue Code (Code) that provide guidance for determining a United States shareholder's pro rata share of a controlled foreign corporation's (CFC's) subpart F income, previously excluded subpart F income withdrawn from investment in less developed countries, previously excluded subpart F income withdrawn from foreign base company shipping operations, and amounts determined under section 956.

DATES: The public hearing originally scheduled for November 18, 2004, at 10 a.m., is cancelled.

FOR FURTHER INFORMATION CONTACT: Sonya M. Cruse of the Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel (Procedures and Administration), at (202) 622-4693 (not a toll-free number).

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking and notice of public hearing that appeared in **Federal Register** on Friday, August 6, 2004, (69 FR 47822), announced that a public hearing was scheduled for November 18, 2004, at 10 a.m., in the IRS Auditorium, Internal Revenue Service Building, 1111 Constitution Avenue, NW., Washington, DC. The subject of the public hearing is under section 951(a) of the Internal Revenue Code.

The public comment period for these regulations expired on November 4, 2004. The notice of proposed rulemaking and notice of public hearing, instructed those interested in testifying at the public hearing to submit a request to speak and an outline of the topics to be addressed. As of Tuesday, November 9, 2004, no one has requested to speak. Therefore, the public hearing scheduled for November 18, 2004, is cancelled.

Cynthia E. Grigsby,

Acting Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel, (Procedures and Administration).

RIN 1024-AC93

Pictured Rocks National Lakeshore, Personal Watercraft Use

AGENCY: National Park Service, Interior.

ACTION: Proposed Rule.

SUMMARY: The National Park Service (NPS) is proposing to designate areas where personal watercraft (PWC) may be used in Pictured Rocks National Lakeshore, Michigan. This proposed rule implements the provisions of the NPS general regulations authorizing park areas to allow the use of PWC by promulgating a special regulation. The *NPS Management Policies 2001* require individual parks to determine whether PWC use is appropriate for a specific park area based on an evaluation of that area's enabling legislation, resources and values, other visitor uses, and overall management objectives.

DATES: Comments must be received by January 14, 2005.

ADDRESSES: Comments on the proposed rule should be mailed to N8391 Sand Point Road, P.O. Box 40 Munising, Michigan 49862-0040. Comments may also be sent by e-mail to PIRO@den.nps.gov. If you comment by e-mail, please include "PWC rule" in the subject line and your name and return address in the body of your Internet message.

SUPPLEMENTARY INFORMATION:

Background

Additional Alternatives

The information contained in this proposed rule supports implementation

of the modified preferred alternative for Pictured Rocks National Lakeshore in the Environmental Assessment (EA) published July, 2002, and the errata sheet published October, 2003. The errata sheet corrects factual information in the EA as well as provides the analysis of the modified preferred alternative. The public should be aware that two other alternatives including a no-PWC alternative were presented in the EA and one alternative was modified in the subsequent errata sheet. Those alternatives should also be reviewed and considered when making comments on this proposed rule.

Personal Watercraft Regulation

On March 21, 2000, the National Park Service published a regulation (36 CFR 3.24) on the management of personal watercraft (PWC) use within all units of the national park system (65 FR 15077). This regulation prohibits PWC use in all national park units unless the NPS determines that this type of water-based recreational activity is appropriate for the specific park unit based on the legislation establishing that park, the park's resources and values, other visitor uses of the area, and overall management objectives. The regulation prohibits PWC use in all park units effective April 20, 2000, except a limited exception was provided for 21 parks, lakeshores, seashores, and recreation areas. The regulation established a 2-year grace period following the final rule publication to give these 21 park units time to consider whether PWC use should be allowed. Accordingly, on April 22, 2002, Pictured Rocks National Lakeshore closed for PWC use.

Description of Pictured Rocks National Lakeshore

Pictured Rocks National Lakeshore is situated in the north-central section of Michigan's Upper Peninsula, along the southern shore of Lake Superior. The eastern half of the Upper Peninsula is bounded by Lakes Superior, Michigan, and Huron. There are a variety of other national parks in the upper Great Lakes, including Apostle Islands National Lakeshore and Isle Royal National Park on Lake Superior, and Sleeping Bear Dunes and Indiana Dunes National Lakeshores on Lake Michigan. Canadian provincial parks are also located on Lake Superior.

The national lakeshore stretches from Munising to Grand Marais, approximately 40 miles to the northeast. The shoreline consists of narrow sandy beaches, sandstone cliffs, and a perched sand dune system. The sandy shoreline

is susceptible to erosion from natural weather conditions.

Pictured Rocks National Lakeshore was authorized in 1966. The lakeshore is noted for its multicolored sandstone cliffs, beaches, sand dunes, waterfalls, inland lakes, wildlife, and forested shoreline. Attractions include a lighthouse and former Coast Guard life-saving stations, along with old farmsteads and orchards. The lakeshore is a year-round recreational destination where hiking, camping, hunting, nature study, and winter activities abound.

Purpose of Pictured Rocks National Lakeshore

As formulated during the Pictured Rocks general management planning process, the purpose of the national lakeshore includes the following:

Preserve a portion of the Great Lakes shoreline for its geographic, scientific, scenic, and historic features, and its associated ecological processes.

Provide opportunities for public benefit in recreation, education, enjoyment, and inspiration.

Protect the character and use of the shoreline zone while allowing economic utilization of the inland buffer zone's renewable resources.

Significance of Pictured Rocks National Lakeshore

As stated in the national lakeshore's Draft General Management Plan / Wilderness Study/Environmental Impact Statement, Pictured Rocks National Lakeshore is significant because:

Pictured Rocks National Lakeshore preserves and affords public access to a spectacular and diverse segment of the Lake Superior shoreline.

Unmatched in their scenic value, the 200-foot high Pictured Rocks cliffs rise perpendicularly from Lake Superior, creating a rock mosaic of form, color, and texture, which is enhanced by cascading waterfalls.

Grand Sable Dunes, perched atop 300-foot-high sand banks above Lake Superior, is one of two perched dune systems on the Great Lakes; within these dunes live unique plant communities resulting from geomorphic processes.

Twelve miles of unspoiled and undeveloped Lake Superior beach contrast with the Pictured Rocks cliffs and Grand Sable Dunes.

Bedrock geology and glacial landforms provide significant topographic relief marked by streams, inland lakes, and a diversity of associated vegetation.

The shoreline offers extraordinary and inspirational scenic vistas of Lake
