

Summary: The information sought here is needed to ensure compliance with our rules on electrical engineering for the design and construction of U.S.-flag commercial vessels.

Need: Title 46 U.S.C. 3306 and 3703 authorize the Coast Guard to establish rules to promote the safety of life and property in commercial vessels. The electrical engineering rules appear at 46 CFR Subchapter J (parts 110 to 113).

Respondents: Owners, operators, and builders of vessels.

Frequency: On occasion.

Burden Estimate: The estimated burden is 1,151 hours a year.

5. *Title:* Streamlined Inspection Program.

OMB Control Number: 1625-0085.

Summary: The Coast Guard established an optional Streamlined Inspection Program (SIP) to provide owners and operators of U.S. vessels an alternative method of complying with inspection requirements of the Coast Guard.

Need: Owners and operators of vessels opting to participate in the program will maintain a vessel in compliance with a Company Action Plan (CAP) and Vessel Action Plan (VAP) and have their own personnel periodically perform many of the tests and examinations conducted by marine inspectors of the Coast Guard. The Coast Guard expects that participating vessels will continuously meet a higher level of safety and readiness throughout the inspection cycle.

Respondents: Owners and operators of vessels.

Frequency: On occasion. Application and plan development occur only once at enrollment. Updates and revisions are required to be made every 2 years. The Officer in Charge, Marine Inspection (OCMI) and the company will review the plans every 5 years.

Burden Estimate: The estimated burden is 2,138 hours a year.

6. *Title:* Report of Oil or Hazardous Substance Discharge; and Report of Suspicious Maritime Activity.

OMB Control Number: 1625-0096.

Type of Request: Revision of currently approved collection.

Summary: Any discharge of oil or a hazardous substance must be reported to the National Response Center (NRC) so that the pre-designated on-scene coordinator can be informed and appropriate spill mitigation action carried out. The NRC also receives suspicious maritime activity reports from the public and disseminates the info to appropriate entities.

Need: Titles 33 CFR 153.203, 40 CFR 263.30 and 264.56, and 49 CFR 171.15

mandate that the National Response Center be the central place to report all pollution spills by the public. Title 33 CFR 101.305 mandates that owners or operators of vessels or facilities required to have security plans report suspicious maritime activities that may result in a Transportation Security Incident (TSI) and breaches of security to the National Response Center. Voluntary reports are also accepted.

Respondents: Persons-in-charge of a vessel or an onshore or offshore facility; owners or operators of vessels or facilities required to have security plans; and the public.

Frequency: On occasion.

Burden Estimate: The estimated burden is 9,105 hours a year.

Dated: November 9, 2004.

David McLeish,

Acting Assistant Commandant for Command, Control, Communications, Computers and Information Technology.
