

responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999).

This rule is not subject to Executive Order 13045, "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

The requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272) do not apply to this rule because it imposes no standards.

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to Congress and the Comptroller General. However, section 808 provides that any rule for which the issuing agency for good cause finds that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest, shall take effect at such time as the agency promulgating the rule determines. 5 U.S.C. 808(2). EPA has made such a good cause finding, including the reasons therefor, and established an effective date of November 16, 2004. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 18, 2005. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purpose of judicial review nor does it extend the time within which petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (*See* section 307(b)(2)).

Corrections to the California State Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing the deletion of various local rules from the California State Implementation Plan (SIP) that were incorporated into the SIP in error. These primarily include rules concerning procedures before the local hearing board, local fees, enforcement authorities, posting of permits, administrative permit requirements, and appeals. EPA has determined that the continued presence of these rules in the SIP is potentially confusing and thus harmful to affected sources, local agencies and to EPA. The intended effect of this final action is to delete these rules and make the SIP consistent with the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Effective Date: This rule is effective on December 16, 2004.

ADDRESSES: You may inspect copies of the administrative record for this action at EPA's Region IX office during normal business hours. You may also see copies of the rules at the locations listed in **SUPPLEMENTARY INFORMATION** under "Public Inspection."

I. Proposed Action

On January 22, 2004 (69 FR 3045), EPA proposed to delete various rules from the California SIP, after determining that they had been approved into the SIP in error. Most of these rules fall into one of the following categories:

A. Rules that govern local hearing board procedures and other administrative requirements such as the frequency of meetings, salaries paid to board members, and petitioning for a local hearing.

B. Administrative permit rules such as those that describe procedures for action, denial, appeal, reinstatement, and posting of permits to operate. Substantive local requirements to fulfill CAA new source review and operating permit provisions are Federally approved or delegated elsewhere.

C. Variance provisions that provide for modification of the requirements of the applicable SIP. The variance procedures included in today’s action are based in State law. *See* California Health & Safety Code §§ 42350–64. State or district-issued variances provide an applicant with a mechanism to obtain relief from state enforcement of a State or local rule under certain conditions. Pursuant to Federal law, specifically section 110(i) of the Clean Air Act, 42 U.S.C. 7410(i), neither EPA nor a State may revise a State Implementation Plan (SIP) by issuing an “order, suspension, plan revision or other action modifying any requirement of an applicable implementation plan” without a plan promulgation or revision. EPA and California have long recognized that a state-issued variance, though binding as a matter of State law, does not prevent EPA from enforcing the underlying SIP provisions unless and until EPA

approves that variance as a SIP revision. The variance provisions included in today’s action are deficient for various reasons, including their failure to address the fact that a state or district-issued variance has no effect on Federal enforceability unless the variance is submitted to and approved by EPA as a SIP revision. Therefore, their inclusion in the SIP is inconsistent with the Act and may be confusing to regulated industry and the general public. Moreover, because state-issued variances require independent EPA approval in order to modify the substantive requirements of a SIP, removal of these variance provisions from the SIP will have no effect on regulated entities. *See Industrial Environmental Association v. Browner*, No. 97–71117 (9th Cir., May 26, 2000).

D. Various provisions describing local agency investigative or enforcement authority including the authority to inspect, make arrests, issue violation notices, and issue orders for abatement. States may need to adopt such rules to demonstrate adequate enforcement authority under section 110(a)(2) of the Act, but they should not be approved into the applicable SIP to avoid potential conflict with EPA’s independent authorities provided in § 113, § 114 and elsewhere.

E. Local fee provisions that are not economic incentive programs and are not designed to replace or relax a SIP emission limit. While it is appropriate for local agencies to implement fee provisions, for example, to recover costs for issuing permits, it is generally not appropriate to make local fee collection federally enforceable.

II. Public Comments and EPA Responses

EPA’s proposed action provided a 30-day public comment period. During this period, we did not receive any public comments.

III. EPA Action

Based on further review, we have decided not to finalize our proposed removal of Rule 230. Action on Applications from the Mendocino County Air Pollution Control District (MCAPCD) portion of the California SIP. These provisions appear appropriate for inclusion in the SIP.

As authorized in section 110(k)(6) of the Act, EPA is deleting all the rules listed in the proposal from the California SIP, with the exception of MCAPCD Rule 230 as noted above.

In this action, EPA is also reinserting a paragraph listing EPA-approved rules of the California SIP that were inadvertently deleted from Title 40 of

the Code of Federal Regulations, part 52, § 52.220, paragraph (c)(31)(i)(A). On December 8, 1976, at 41 FR 53661, EPA published a final rulemaking action approving Rules 200 to 216 of the Great Basin Unified Air Pollution Control District submitted by the California Air Resources Board as revisions to the California SIP. The listing of these rules was inadvertently deleted from the Code of Federal Regulations. Two of these provisions, Rules 211 and 214, are being removed from the SIP in the new paragraph 52.220(c)(31)(i)(H). With these changes, the CFR description of the SIP will be up to date.

IV. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 32111, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This action imposes no additional requirements beyond those imposed by State law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104–4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). Nor will it have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045, “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23,

1997), because it is not economically significant.

In this action, EPA is not developing or adopting a technical standard. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 18, 2005. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

[Docket No. NHTSA 2004-19216]

RIN 2127-AD08

Federal Motor Vehicle Safety Standards; Seating Systems

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Termination of rulemaking.

SUMMARY: This notice terminates a rulemaking proceeding to amend Federal Motor Vehicle Safety Standard (FMVSS) No. 207, "Seating systems." NHTSA is seeking to improve motor vehicle seat performance in rear impacts. The agency has conducted extensive physical testing of seat backs, computer modeling of seated occupants in rear impacts and dynamic testing of instrumented test dummies in vehicle seats. However, additional research and data analyses are needed to allow an informed decision on a rulemaking action in this area. Since the Semi-Annual Regulatory Agenda (Unified Agenda) is intended to provide the public with information on rulemaking actions to be taken in the next year or so, and since we do not anticipate being able to take rulemaking action in this area in that time frame, we are terminating rulemaking proceedings on this issue. Research into this area will continue as time and resources allow, particularly as it relates to the goal of unifying FMVSS No. 202, "Head restraints," and FMVSS No. 207 into a single comprehensive rear impact protection standard.
