

letters), and December 30, 2003, and February 10, February 18, February 25, March 17, May 12, and July 20, 2004. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov. (Note: Public access to ADAMS has been temporarily suspended so that security reviews of publicly available documents may be performed and potentially sensitive information removed. Please check the NRC Web site for updates on the resumption of ADAMS access.)

Dated at Rockville, Maryland, this 12th day of November, 2004.

For the Nuclear Regulatory Commission.

Richard B. Ennis,

Senior Project Manager, VY Section, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-17845]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for Ponce School of Medicine's Facility in Ponce, PR

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Orysia Masnyk Bailey, Materials Security & Industrial Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania, 19406, telephone (404) 562-4739, fax (404) 562-4955; or by e-mail: omm@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is issuing a license amendment to

the Ponce School of Medicine for Materials License No. 52-19547-01, to authorize release of its facility in Ponce, Puerto Rico for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

II. EA Summary

The purpose of the action is to authorize the release of the licensee's Ponce, Puerto Rico facility for unrestricted use. The Ponce School of Medicine was authorized by the NRC from October 15, 1981 to use radioactive materials for research and development purposes at the site. On February 4, 2003, the Ponce School of Medicine requested that the NRC release the facility for unrestricted use. The Ponce School of Medicine has conducted surveys of the facility and provided information to the NRC to demonstrate that the site meets the license termination criteria in subpart E of 10 CFR part 20 for unrestricted release.

The NRC staff has prepared an EA in support of the license amendment. The facility was remediated and surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final status survey submitted by the Ponce School of Medicine. Based on its reviews, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of the residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in subpart E of 10 CFR part 20, a Finding of No Significant Impact is appropriate.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the license amendment to release the facility for unrestricted use. The NRC staff has evaluated the Ponce School of Medicine's request and the results of the survey and has concluded that the completed action complies with the criteria in subpart E of 10 CFR part 20. The staff has found that the environmental impacts from the action are bounded by the impacts evaluated by NUREG-1496, Volumes 1-3, "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed

Facilities" (ML042310492, ML042320379, and ML042330385). On the basis of the EA, the NRC has concluded that the environmental impacts from the action are expected to be insignificant and has determined not to prepare an environmental impact statement for the action.

IV. Further Information

Documents related to this action, including the application for the license amendment and supporting documentation, are available electronically in the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's documents. The ADAMS accession numbers for the documents related to this Notice are: The Environmental Assessment (ML042720062), and Letter dated February 4, 2003 transmitting the Final Status Survey Report (ML030430358). On October 25, 2004, the NRC terminated public access to ADAMS and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS. The NRC Public Documents Room is located at NRC Headquarters in Rockville, MD, and can be contacted at (800) 397-4209, (301) 415-4737 or by e-mail at pdr@nrc.gov.

These documents may be viewed electronically at the NRC Public Document Room (PDR), O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD, 20852. The PDR reproduction contractor will copy documents for a fee. The PDR is open from 7:45 a.m. to 4:15 p.m., Monday through Friday, except on Federal holidays.

Dated at King of Prussia, Pennsylvania this 10th day of November, 2004.

For the Nuclear Regulatory Commission.

John D. Kinneman,

Chief, Materials Security & Industrial Branch, Division of Nuclear Materials Safety, Region I.
