

amount of the order the floor broker crosses may not exceed 40%), recognizing that in most instances the effect of this rule change would be that DPMs would not be entitled to participation guarantees (because the facilitating firm typically would take its 40% guaranteed amount). Necessary changes have been made to the proposed rule language to reflect this important limitation.

Competitive pressures mandate the change from a 20/40% rule to a straight 40% rule. International Securities Exchange ("ISE") Rule 716(d)(ii) provides Electronic Access Members with at least forty percent (40%) of the original size of the order for orders they submit through ISE's facilitation mechanism, whether executed at the current ISE displayed price or a better price. Accordingly, member firms have a strong inducement to send to the ISE orders they would like to facilitate. Recently, the Pacific Exchange received approval of rule filing SR-PCX-2003-64 in which it too adopted a straight 40% rule.<sup>4</sup> Accordingly, CBOE represents that this proposal is necessary to remain competitive in the facilitation arena.

## 2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations under the Act applicable to a national securities exchange and, in particular, the requirements of section 6(b) of the Act.<sup>5</sup> Specifically, the Exchange believes the proposed rule change is consistent with the section 6(b)(5)<sup>6</sup> requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and, in general, to protect investors and the public interest.

### B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose a burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CHX included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received regarding the proposed rule change. The text of these statements may be examined at the places specified in item IV below. The Exchange has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

In August 2004, the Exchange's Board of Governors decided to eliminate the application and assignment fees charged to specialist firms that seek to trade a Nasdaq/NM security when that security is assigned without competition.<sup>5</sup> The Exchange now proposes to similarly eliminate the application fee charged to specialist firms that seek to trade a dual trading system security, when the security is assigned without competition. The Exchange also proposes to suspend, through December 31, 2004, the assignment fees charged to

<sup>5</sup> The Exchange decided to continue to charge specialist assignment fees with respect to securities that are assigned to a specialist firm in competition with other firms, reflecting the increased administrative costs associated with allocating stocks in competition. See Securities Exchange Act Release No. 50616 (November 1, 2004).

those firms when dual trading system securities are assigned without competition.<sup>6</sup>

The CHX represents that these proposed changes, like the similar proposal to modify these fees for specialists that trade Nasdaq/NM securities,<sup>7</sup> are designed to encourage specialist firms to trade additional securities by allowing them to do so without absorbing additional costs. The Exchange believes that these changes to the Fee Schedule provide specialists with an appropriate incentive to increase the number of issues they trade (consistent with their duties as specialists), which could allow the Exchange's members to offer their customers access to a wider array of specialist-traded securities. The Exchange has proposed to suspend the assignment fee for issues assigned without competition only through the end of the year to determine, among other things, whether the fee suspension has the intended effect. These fee changes became effective on October 1, 2004.

###### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act,<sup>8</sup> in general, and furthers the objectives of section 6(b)(4) of the Act,<sup>9</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among its members.

##### B. Self-Regulatory Organization's Statement of Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

##### C. Self-Regulatory Organization's Statement on Comments Regarding the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

#### III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change has become effective pursuant to section 19(b)(3)(A)(ii) of the Act<sup>10</sup> and Rule

<sup>6</sup> Under the Exchange's rules, dual trading system securities are securities listed on the New York Stock Exchange, the American Stock Exchange or on markets other than the Nasdaq Stock Market, Inc.

19b–4(f)(2) thereunder,<sup>11</sup> because it establishes or changes a due, fee or other charge imposed by the Exchange. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purpose of the Act.<sup>12</sup>
