

I. Background

In the **Federal Register** of April 19, 2000 (65 FR 20992), FDA's Center for Veterinary Medicine (CVM) announced plans to develop a prototypic risk assessment (RA) model that accounts for the transfer of resistance determinants from bacteria in food-producing animals to bacteria in humans. CVM also requested comments on their approach to the RA model, requested that scientific data and information relevant to the conduct of the RA be submitted, and indicated its intention to work with stakeholders to assess potential risks.

The outcome of our work is a document entitled "Draft Risk Assessment of Streptogramin Resistance in *Enterococcus faecium* Attributable to the Use of Streptogramins in Animals." This draft risk assessment specifically addresses the link between the use of the streptogramin antimicrobial, virginiamycin, in food-producing animals and the development of resistance to the related streptogramins, quinupristin-dalfopristin, used to treat human enterococcal infections. *Enterococcus* bacteria include commensal strains normally present in the intestines of animals and man. This risk assessment focuses on the opportunistic pathogen *Enterococcus faecium*.

In an effort to better ensure broad awareness of this **Federal Register** notice, FDA will make copies available through the FDA Dockets Listserv (<http://www.fda.gov/ohrms/dockets/FDAMAIL/DMBemaillist.htm>). To be added to any of FDA's free e-mail subscription services go to: <http://www.fda.gov>. Click on "Subscribe to FDA's E-mail Lists", then follow the instructions provided.

II. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) written or electronic comments on the draft guidance. Two copies of mailed comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The draft guidance and received comments are available for public examination in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

The Board will also meet in closed sessions on December 7 from 9:30 a.m. to 4:30 p.m. and on December 8 from 8:30 a.m. until noon to develop the analytical and administrative policies for the final Revisions to the Mandatory Guidelines for Federal Workplace Drug Testing Program that were published as proposed revisions in the **Federal Register** on April 13, 2004 (69 FR 19673). DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Renewal Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act; OMB Control Number 1018-0102; Special Use Permit Applications on National Wildlife Refuges Outside Alaska Covering 50 CFR 25.41, 25.61, 26.36, 27.71, 27.91, 27.97, 29.1, 29.2, 30.11, 31.2, 31.13, 31.14, 31.16, and 43 CFR 5

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Fish and Wildlife Service (We) is requesting that OMB extend an existing approval to collect information for Special Use Permit Applications on Refuges Outside Alaska. We will use the information that we collect to determine if requested activities are compatible and appropriate with the purpose for which the refuge was established.

DATES: You must submit comments on or before December 27, 2004.

ADDRESSES: Send your comments on this information collection renewal to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-6566 (fax) or at OIRA_DOCKET@OMB.eop.gov (e-mail). Please provide a copy of your comments to Hope Grey, Information Collection

Clearance Officer, Fish and Wildlife Service, 4401 N. Fairfax Drive, MS 222-ARLSQ, Arlington, Virginia 22203 (mail); (703) 358-2269 (fax); or hope_grey@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection requirement, explanatory information, or related forms, contact Hope Grey at the address or fax number listed above or by telephone at (703) 358-2482.

SUPPLEMENTARY INFORMATION: We have sent a request to OMB to renew approval of the information collection requirements for Special Use Permit Applications on National Wildlife Refuges Outside of Alaska. Currently we have approval from OMB to collect information under OMB control number 1018-0102. This approval expires on November 30, 2004. We may not conduct or sponsor, and a person is not required to respond to, a collection of information unless we display a currently valid OMB control number. OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see CFR 1380.8(d)). OMB has up to 60 days to approve or disapprove our information collection request, but their response may be given as early as 30 days after our submittal. Therefore, to ensure consideration, send your comments to OMB by the date listed in the **DATES** section near the beginning of this notice.

On July 16, 2004, we published in the **Federal Register** (69 FR 42762) a 60-day notice of our intent to request renewal of this information collection authority from OMB. In that notice, we solicited public comments for 60 days ending September 14, 2004. We received three comments regarding this notice.

Comment: A commenter felt that (1) the proposal was too vague and we should describe what kind of permits we issue; (2) at an estimate of 25 permits issued per refuge, we were issuing too many permits; and (3) farming activities were incompatible with refuge operations.

Response: (1) The universe of types of permits potentially issued on our 529 national wildlife refuges outside of Alaska prevents us from listing each and every type of permit. We describe a sampling of the types of permits a refuge manager, upon finding an activity compatible, might issue. (2) As to the average estimate of permits issued per refuge, each refuge manager must decide
