SUPPLEMENTARY INFORMATION: On September 17, 2004, we published a proposed rule setting forth procedures and criteria for the establishment of fees under section 402(b) of SMCRA. That section of the Act provides that, when the rates set forth in section 402(a) of the Act expire, the fee for coal produced after that date “shall be established at a rate to continue to provide for the deposit referred to in section 402(a) of SMCRA.” Section 402(h) requires the annual transfer of certain estimated Abandoned Mine Reclamation Fund earnings to the United Mine Workers of America Combined Benefit Fund. The proposed rule also contained revisions to the regulations governing allocation and disposition of fee collections and other Abandoned Mine Reclamation Fund income. For a full explanation of the proposed rule, please refer to the rule text and preamble published at 69 FR 56132–56144.
At the time the rule was published, the fee rates set forth in section 402(a) of the Act would have expired on September 30, 2004. However, a continuing resolution enacted on September 30, 2004, extended those rates through November 20, 2004. See section 125 of Public Law 108–309. Further continuing resolutions or appropriations legislation may provide for additional extensions of the statutory rates or revisions thereof.
The comment period on the proposed rule was originally scheduled to close on November 16, 2004. However, by letter dated November 10, 2004, the trustees of the United Mine Workers of America Combined Benefit Fund requested a 30-day extension of that deadline. We are granting that request, which means that all interested persons may submit electronic or written comments until December 16, 2004, in accordance with the instructions provided in DATES and ADDRESSES above and in Part X of the preamble to the September 17, 2004, rule (see 69 FR 56140).

Director, Office of Surface Mining Reclamation and Enforcement.
