

Pursuant to Section 6(b) of the Act, the name and principal place of business of the standards development organization is: Insulating Glass Manufacturers Alliance, Ottawa, Ontario, CANADA. The nature and scope of IGMA's standards development activities are: To develop and coordinate voluntary consensus standards applicable to the production of insulating glass units primarily through its sponsorship and administration of a certification program for insulating glass units. The IGMA certification program recognizes the need for regular and impartial product testing, maintenance of quality control in the manufacturing process, and identification of products that conform to established criteria. Products eligible for certification under the IGMA certification program are insulating glass units meeting the current published version of one or more of the following: (1) ASTM E2190, Standard Specification for Insulating Glass Unit Performance and Evaluation; (2) CAN CGSB 12.8, Insulating Glass Units. IGMA contracts with independent agencies and/or auditors to perform facility audits and compliance audits to ensure eligibility for certification. As part of the certification program, IGMA also provides guidelines to manufacturers and others for the implementation of quality assurance programs to ensure in-plant quality control.

BILLING CODE 4410-11-M

DEPARTMENT OF JUSTICE

Antitrust Division

Notice Pursuant to the National Cooperative Research and Production Act of 1993—International Association of Plumbing and Mechanical Officials

Notice is hereby given that, on September 14, 2004, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), International Association of Plumbing and Mechanical Officials ("IAPMO") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The

notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the name and principal place of business of the standards development organization is: International Association of Plumbing and Mechanical Officials, Ontario, CA. The nature and scope of IAPMO's standards development activities are: The development of minimum standards and requirements to safeguard life or limb, health, property and public welfare by regulating and controlling the design, construction, installation, quality of materials, location, operation and maintenance or use of plumbing, heating, ventilating, cooling, refrigeration systems, incinerators, and other miscellaneous heat producing appliances. The activity also includes the development of performance standards for synthetic organic plumbing fixtures and standards for the composition, dimensions, and/or mechanical and physical properties of materials, fixtures, devices and equipment used or installed in plumbing or mechanical systems.

BILLING CODE 4410-11-M

DEPARTMENT OF JUSTICE**Antitrust Division****Notice Pursuant to the National Cooperative Research and Production Act of 1993—MPLS and Frame Relay Alliance**

Notice is hereby given that, on September 23, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), MPLS and Frame Relay Alliance ("MFA") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: MPLS and Frame Relay Alliance, Fremont, CA. The nature and scope of MFA's standards development activities are: (1) Serving as a meeting ground for companies that are creating and deploying products that implement MPLS, or services that depend on the capabilities introduced by MPLS and its associated technologies; (2) identifying, selecting, augmenting, as appropriate, and publishing MPLS implementation agreements drawn from appropriate national and international, defacto, and de jure standards; (3) identifying,

selecting, augmenting, as appropriate, and publishing frame relay implementation agreements drawn from appropriate national and international, defacto, and de jure standards; (4) promoting/fostering the measurement, demonstration and testing of frame relay products in order to further compatibility and interoperability; (5) conducting cooperative research; (6) developing proposals to be made to appropriate national and international standards bodies in order to further system compatibility and interoperability; and (7) developing publications and informational materials. "Implementation agreement(s)" shall mean specifications, protocols, system architectures and other similar guidelines related to multi-protocol label switching and/or frame relay technologies that may be developed, adopted, published or otherwise made available to the public by the Corporation.
