

(2) Program Plan: Program objectives should be stated clearly. Objectives should respond to priorities and address gaps in knowledge for particular fields and/or regions. A calendar or timeline of major program activities should be included. Responsibilities of partner organizations, if any, should be described clearly.

(3) *Institutional Capacity*: Proposed personnel and selection committees should be adequate and appropriate to achieve the program's goals. The proposal should reflect the applicant's expertise and knowledge in conducting national competitive award programs of the type the applicant proposes on the countries of Southeast Europe and/or Eurasia. Past performance of prior recipients and the demonstrated potential of new applicants will be considered.

(4) *Cost-Effectiveness and Cost Sharing*: Administrative costs in the proposal budget should be kept to a minimum. All other items should be necessary and appropriate. Proposals should maximize cost sharing, including in-kind assistance, through contributions from the applicant, partner organizations, as well as other private sector support. "Applicant Cost-Sharing" and "Third Party Cost Sharing" should be included as separate columns in the budget request. Proposal budgets that do not provide cost sharing will be deemed less competitive in this category.

(5) *Evaluation, Monitoring, Database, Reporting*: Proposals should include a plan to evaluate and monitor program successes and challenges. Methods for linking outcomes to program objectives are recommended. The proposal should address the applicant's willingness and ability to contribute to the alumni database.

Part III

Available Funds: Funding for this program is subject to final Congressional action and the appropriation of FY 2005 funds. Funding may be available at a level of approximately \$5.0 million. In Fiscal Year 2004, the program was funded at \$5.0 million from the FREEDOM Support and SEED Acts, which funded grants to nine national organizations. The number of awards may vary each year, depending on the level of funding and the quality of the applications submitted.

The Department legally cannot commit funds that may be appropriated in subsequent fiscal years. Thus multi-year projects cannot receive assured funding unless such funding is supplied out of a single year's appropriation. Grant agreements may permit the

expenditure from a particular year's grant to be made up to three years after the grant's effective date.

The terms and conditions published in this Request for Proposals are binding and may not be modified by any Department representative. Issuance of the Request for Proposals does not constitute an award commitment on the part of the U.S. Government. The Department reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the program and the availability of funds.
