

proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before February 4, 2004.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: November 30, 2004.

Angela C. Arrington,

Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer.

DEPARTMENT OF ENERGY

National Energy Technology Laboratory; Notice of Intent To Grant Exclusive or Partially Exclusive Patent License

AGENCY: National Energy Technology Laboratory (NETL, Department of Energy (DOE).

ACTION: Notice.

SUMMARY: Notice is hereby given of an intent to grant to Mobotecusa at Orinda, California, an exclusive or partially exclusive license to practice the invention described in the U.S. patent number 6,521,021, "Thief Process for the Removal of Mercury from Flue Gas." The invention is owned by the United States of America, as represented by the Department of Energy (DOE). The proposed license will be exclusive or partially exclusive, subject to a license and other rights retained by the U.S. Government, and other terms and conditions to be negotiated.

DATES: Written comments or nonexclusive license applications are to be received at the address listed below no later than December 21, 2004.

ADDRESSES: Diane Newlon, Technology Transfer Manager, U.S. Department of Energy, National Energy Technology Laboratory, P.O. Box 880, Morgantown, WV 26507-0880.

FOR FURTHER INFORMATION CONTACT: Diane Newlon, Technology Transfer Manager, U.S. Department of Energy, National Energy Technology Laboratory, P.O. Box 880, Morgantown, WV 26507-0880; Telephone (304) 285-4086; E-mail: newlon@netl.doe.gov.

SUPPLEMENTARY INFORMATION: 35 U.S.C. 209(c) provides the DOE with authority to grant exclusive or partially exclusive licenses in Department-owned inventions, where a determination can be made, among other things, that the desired practical application of the invention has not been achieved, or is not likely expeditiously to be achieved, under a nonexclusive license. The statute and implementing regulations (37 CFR part 404) require that the necessary determinations be made after public notice and opportunity for filing written objections.

Mobotecusa, a small business, located at Orinda, California, has applied for an exclusive or partially exclusive license to practice the invention and has a plan for commercialization of the invention.

DOE intends to grant the license, upon a final determination in accordance with 35 U.S.C. 209(c), unless within 15 days of publication of this Notice the Technology Transfer Manager, Department of Energy, National Energy Technology Laboratory, P.O. Box 880, Morgantown, WV 26507-0880, receives in writing any of the following, together with the supporting documents:

(i) A statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed license; or

(ii) An application for a nonexclusive license to the invention, in which applicant states that it already has brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The proposed license will be exclusive or partially exclusive, subject to a license and other rights retained by the U.S. Government, and subject to a negotiated royalty. The Department will review all timely written responses to this notice, and will grant the license if, after expiration of the 15-day notice period, and after consideration of any written responses to this notice, a

determination is made, in accordance with 35 U.S.C. 209(c), that the license grant is in the public interest.

Issued: November 23, 2004.

Rita A. Bajura,

Director, National Energy Technology Laboratory.
