

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 21, 2004 (69 FR 34346), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. SFUND-2004-0005, which is available for public viewing at the Superfund Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Superfund Docket is (202) 566-0276. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: Superfund Site Evaluation and Hazard Ranking System (Renewal).

Abstract: Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA, 1980 and 1986) amends

the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) to include criteria prioritizing releases throughout the U.S. before undertaking remedial action at uncontrolled hazardous waste sites. The Hazard Ranking System (HRS) is a model that is used to evaluate the relative threats to human health and the environment posed by actual or potential releases of hazardous substances, pollutants, and contaminants. The HRS criteria take into account the population at risk, the hazard potential of the substances, as well as the potential for contamination of drinking water supplies, direct human contact, destruction of sensitive ecosystems, damage to natural resources affecting the human food chain, contamination of surface water used for recreation or potable water consumption, and contamination of ambient air.

Under this ICR, the States or Tribal authorities will apply the HRS by identifying and classifying those releases that warrant further investigation. The information collected under this ICR is required to help determine whether an individual site is eligible to be included on the National Priorities List (NPL). Only sites on the NPL are eligible for Superfund-financed remedial actions.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 166.1 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States, Indian Tribes, and U.S. territories performing Superfund site evaluation activities.

Estimated Number of Respondents: 607.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 150,285.

Estimated Total Annual Cost: \$13,580,375, includes \$0 annualized capital expenditure, \$0 O&M costs, and \$13,580,375 Respondent Labor Costs, though costs are fully reimbursed by the Agency.

Changes in the Estimates: There is a decrease of 80,248 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to adjustments to the estimates because fewer site assessment activities are conducted nationally.

Dated: November 29, 2004.

Oscar Morales,

Director, Collection Strategies Division.

Draft Proposed Sampling Program To Determine Extent of World Trade Center Impacts to the Indoor Environment

AGENCY: Environmental Protection Agency.

ACTION: Notice of second extension of public comment period for Draft Proposed Sampling Program to Determine Extent of World Trade Center Impacts to the Indoor Environment.

SUMMARY: On October 21, 2004, EPA published a **Federal Register** notice (69 FR 61838) announcing the availability of the External Review Draft entitled, Draft Proposed Sampling Program to Determine Extent of World Trade Center Impacts to the Indoor Environment (EPA/600/R-04/169A), and the beginning of a 30-day public comment period. On November 19, 2004, EPA published a **Federal Register** notice (69 FR 67735) extending the public comment period until January 3, 2005, as requested by members of the Lower Manhattan community and labor organizations who said a 45-day extension was needed for them to formulate their comments. Subsequently a new request for an additional extension was received from members

of the Lower Manhattan community and labor organizations; therefore, EPA is now extending the public comment period until January 18, 2005. EPA will consider the public comment submissions in revising the document.

DATES: The public comment period will end on January 18, 2005. Technical comments should be in writing and must be postmarked by January 18, 2005.

ADDRESSES: The External Review Draft, Draft Proposed Sampling Program to Determine Extent of World Trade Center Impacts to the Indoor Environment, is available via the Internet on the Web page of the World Trade Center (WTC) Expert Technical Review Panel, <http://www.epa.gov/wtc/panel/>. Comments may be submitted electronically, by mail, by facsimile or by hand delivery/courier. Please follow the detailed instructions as provided in the Supplementary Information section below.

FOR FURTHER INFORMATION CONTACT: For further information on the draft sampling proposal, please contact Matthew Lorber at (202) 564-3243 or lorber.matthew@epa.gov. For further information regarding the WTC Expert Technical Review Panel, please contact Lisa Matthews at (202) 564-6669 or matthews.lisa@epa.gov.

SUPPLEMENTARY INFORMATION:

1. *How to Submit Information to E-Docket:* EPA has established an official public docket for information pertaining to this action, Docket ID No. ORD-2004-0003. The official public docket is the collection of materials, excluding Confidential Business Information (CBI) or other information whose disclosure is restricted by statute, that is available for public viewing at the Office of Environmental Information (OEI) Docket in the Headquarters EPA Docket Center (EPA/DC), EPA West Building, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752; facsimile: (202) 566-1753; or e-mail: ORD.Docket@epa.gov.

An electronic version of the official public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, to access the index listing of the contents of the official public docket, and to view

those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number.

Certain types of information will not be placed in EPA Dockets. As indicated above, information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket; the same information will not be available for public viewing in EPA Dockets. Copyrighted material also will not be placed in EPA Dockets but will be referenced there and available as printed material in the official public docket.

Persons submitting information should note that EPA's policy makes the information available as received and at no charge for public viewing in EPA Dockets. This policy applies to information submitted electronically or in paper, except where restricted by copyright, CBI or statute.

Unless restricted as above, information submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA Dockets. Physical objects will be photographed, where practical, and the photograph will be placed in EPA Dockets along with a brief description written by the docket staff.

You may submit information electronically, by mail, by facsimile or by hand delivery/courier. To ensure proper receipt by EPA, include the appropriate docket identification number with your submission. Please adhere to the specified submitting period. Information received or submitted past the close date will be marked "late" and will only be considered if time permits.

If you submit information electronically, EPA recommends that you include your name, mailing address, and an e-mail address or other details for contacting you. Also include these contact details on the outside of any disk or CD ROM you submit and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the person submitting the information and allows EPA to contact you in case the Agency cannot read what you submit due to technical difficulties or needs to clarify issues raised by what you submit. If EPA cannot read what you submit due to technical difficulties and cannot contact you for clarification, this situation may delay or prevent the Agency's consideration of the information.

To access EPA's electronic public docket from the EPA Internet Home Page, select "Information Sources,"

"Dockets," and "EPA Dockets." Once in the system, select "search," and then key in Docket ID No. ORD-2004-0003. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address or other contact details unless you provide it with the information you submit.

Information may be sent by electronic mail (e-mail) to ORD.Docket@epa.gov, Attention Docket ID No. ORD-2004-0003. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address, and it becomes part of the information in the official public docket and is made available in EPA's electronic public docket.

You may submit information on a disk or CD ROM that you mail to the OEI Docket mailing address. Files will be accepted in WordPerfect, Word or ASCII file format. Avoid the use of special characters and any form of encryption.

If you provide information in writing, please submit one unbound original, with pages numbered consecutively, and three copies. For attachments, provide an index, number pages consecutively with the main text, and submit an unbound original and three copies.

Dated: December 2, 2004.

William H. Farland,

Acting Deputy Assistant Administrator for Science, EPA Office of Research and Development.
