**SUPPLEMENTARY INFORMATION:**

*Agency:* National Highway Traffic Safety Administration.

*Title:* Motor Vehicle Safety; Disposition of Recalled Tires.

*OMB Number:* 2127-0004.

*Type of Request:* Revision of currently approved collection.

*Abstract:* Section 7 of the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act requires a manufacturer's remedy program for tires to include a plan for preventing, to the extent reasonably within the manufacturer's control, the resale of replaced tires for use on motor vehicles, as well as a plan for the disposition of replaced tires other than in landfills, particularly through methods such as shredding, crumbling, recycling, recovery, or other "beneficial non-vehicular uses."

Manufacturers that conduct recalls are already required by 49 CFR part 573 to submit a Defect or Noncompliance Information Report, containing certain information, to the National Highway Traffic Safety Administration (NHTSA). One item of required information is a description of the manufacturer's program for remedying the defect or noncompliance (remedy plan). This information collection adds the requirement for manufacturers to include their plan for disposal of recalled tires in their remedy plan. Further, Section 7 requires manufacturers to include information about the implementation of remedy plans in quarterly reports that they are required to make to NHTSA. Manufacturers are already required to file quarterly reports containing certain information about the progress of recalls. This rule adds a requirement to report to NHTSA in these quarterly reports information about tires which were not disposed of in accordance with the disposal plan.

*Affected Public:* All manufacturers of recalled tires and all dealers of recalled tires.

*Estimated Total Annual Burden:* 20 hours increase over the current allotment of 18,204 hours for a total of 18,224 hours. There is no increase in reporting and recordkeeping cost burden.
