Background: The Corporation has contracted with the Nelson A. Rockefeller Institute of Government to carry out a Field Network Pilot Study to learn how the Corporation's goals and requirements regarding capacity building and performance measurement are affecting the AmeriCorps program and the nonprofit organizations where AmeriCorps members serve. The Pilot Study will consider how grantee and subgrantee organizations are selected; how the Corporation communicates with grantees and subgrantees; how local contexts and available funding opportunities vary from state to state; and how the Corporation's goals and requirements fit into the context of the grantees' and subgrantees' own policies and the many diverse responsibilities they face.

The Field Network Pilot Study Report Form will be used to assess the impact of the Corporation's policies around capacity building and the performance measurement initiative. Independent, local field researchers will be employed in collecting the information.
