

and Class A television stations before the studio may be moved to that location. Where the main studio is already authorized at a location outside those specified in paragraph (a) or (c) of this rule section, and the licensee or permittee desires to specify a new location also located outside those locations, written authority must also be received from the Commission prior to the relocation of the main studio. Authority for these changes may be requested by filing a letter with an explanation of the proposed changes with the appropriate division. Licensees or permittees should also be aware that the filing of such a letter request does not imply approval of the relocation request, because each request is addressed on case-by-case basis. Commercial AM, FM, TV or Class A TV licensees or permittees much pay a fee when filing a request letter under 47 CFR 1.1104.

The form is a data collection device used to compile statistics on the workforce employed by broadcast licensees/permittees. The report identifies each staff member by gender and race/ethnicity in each of the nice major job categories. On June 4, 2004, the FCC released the Third Report and Order and Fourth Notice of Proposed Rulemaking (3rd R&O), In the Matter of Review of the Commission's Broadcast and Cable Equal Employment Opportunity Rules and Policies, MM Docket No. 98-204, FCC 04-103, in which it considers issues relating to the Annual Employment Report forms, including FCC Form 395-B, "The Broadcast Station Annual Employment Report." SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0799.

Number of Respondents: 13,565.

Needs and Uses: The Commission is revising the FCC Form 60-2 to request information from cellular filers reporting cellular cross-ownership holding required pursuant to 47 CFR 1.919 of the Commission's rules. The information will be used by the Commission to determine whether the filer is legally, technically and financially qualified to be licensed. Without such information the Commission could not determine whether to issue the licenses to the applicants that provide telecommunications services to the public and therefore fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended. It will also be used to update the database and provide for proper use of the frequency spectrum.

OMB Control No.: 3060-1059.

Title: Global Mobile Personal Communications by Satellite (GMPCS)/E911 Call Centers.

Form No.: Not applicable.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit.
Number of Respondents: 25.
Estimated Time Per Response: 1 hour.
Frequency of Response: Annual reporting requirement and recordkeeping requirement.
Total Annual Burden: 25 hours.
Total Annual Cost: \$5,000.
Privacy Act Impact Assessment: Not applicable.

Needs and Uses: The Commission has revised this information collection to remove the pre-implementation status reports which were a one-time only requirement that has now past. This information collection has removed the burden hours and costs associated with this one-time requirement. Additionally, the Commission is now requiring mandatory electronic filing of the post-implementation reports. The mandatory electronic filing requirement of these reports is due to the Commission annually beginning on October 15, 2005.

The information collections that result from the E911 Scope Second Report and Order, FCC 04-201, IB Docket No. 99-67, are used by the Commission under its authority to license commercial satellite services in the United States. Without the collection of information that would result from these rules, the Commission would not be able to monitor the Mobile Satellite Services (MSS) carriers' establishment of call centers which are essential to provide emergency services, such as handling emergency 911 telephone calls from American citizens. The recordkeeping and reporting requirements include data on MSS call center use such as the aggregate number of calls that the call centers receive and the number of calls that required

forwarding to a local Public Safety Answering Point (PSAP). The Commission will use this data to monitor compliance with the call center requirement and track usage trends. Such information would be useful to the Commission in considering whether FCC rules require modification to accommodate the changing market.
