Information Collection Requests

1. **Title:** Unauthorized entry into Cuban territorial waters (Formerly, "Unauthorized departure of U.S. vessels and entry into Cuban territorial waters").

OMB Control Number: 1625-0106.

Type of Request: Extension of currently approved collection.

Affected Public: Certain individuals.

Form: None.

Abstract: The President by proclamation and the Secretary of Homeland Security by order have directed and authorized the U.S. Coast Guard to regulate the anchorage and movement of certain U.S. vessels, and vessels without nationality, located within the territorial waters of the United States, that thereafter enter Cuban territorial waters. The Coast

Guard has issued a final rule (69 FR 41367, July 8, 2004) that requires all such U.S. registered vessels, and vessels without nationality, less than 100 meters in length, to apply for and receive a permit to enter Cuban territorial waters. This requirement is necessary to preclude such vessels from departing U.S. waters and thereafter entering Cuban waters, unless such vessels hold licenses from other government agencies that allow them to engage in exports to, and transactions with Cuba. The information is collected to regulate departure of U.S. vessels from U.S. territorial waters and entry thereafter into Cuban territorial waters. The need to regulate this vessel traffic supports ongoing efforts to enforce the Cuban embargo, which is designed to bring about an end to the current government and a peaceful transition to democracy. Accordingly, only applicants that demonstrate prior U.S. government approval for exports to and transactions with Cuba may be issued a Coast Guard permit.

Burden Estimates: The estimated burden is 43.0 hours a year.

Dated: December 15, 2004.

Ronald T. Hewitt,

Assistant Commandant for C4 and Information Technology.

Title: Registered Traveler (RT) Pilot Program; Satisfaction and Effectiveness Measurement Data Collection Instruments.

Type of Request: Renewal of an existing collection.

OMB Control Number: 1652-0019.

Form(s): Electronic enrollment application; satisfaction survey.

Affected Public: Applicants to the RT Pilot Program and lead stakeholders.

Abstract: TSA is continuing an ongoing pilot at a limited number of airports to test and evaluate specific technologies and business processes related to the Registered Traveler (RT) concept. This pilot program is designed to positively identify qualified, known travelers via advanced identification technologies for the purposes of expediting those passengers' travel experience at the airport security checkpoints and thereby enabling TSA to improve the allocation of its limited security resources. In addition, TSA may expand the current pilot to additional locations and may also test the concept of a public/private partnership.

TSA will collect and retain a minimal amount of personal information from individuals who volunteer to participate in the program. This information may be used by TSA to verify an applicant's claimed identity, complete a name-based security threat assessment, and issue an identification token prior to enrollment in the program. In addition, TSA will administer two instruments to measure satisfaction of RT pilot participants and key stakeholders to collect data on the effectiveness of the pilot technologies and business processes. The first instrument will be a survey of a representative percentage
