SUPPLEMENTARY INFORMATION:

Title: Importation of Fruits and Vegetables.

OMB Number: 0579-0136.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701-7772) authorizes the Secretary of Agriculture to regulate the importation of plants, plant products, and other articles into the United States to prevent the introduction of plant pests and noxious weeds.

The regulations in Subpart—Fruits and Vegetables (7 CFR 319.56 through 319.56-8) authorize a number of fruits and vegetables to be imported into the United States, under specified conditions, from certain parts of the world. These fruits and vegetables include cole and mustard crops from Ecuador, El Salvador, Nicaragua, and Peru; rhubarb from Guatemala; parsley from Israel and Nicaragua; salicornia from Mexico; mint and rosemary from Nicaragua; Swiss chard from Peru; cantaloupe, honeydew melon, and watermelon from Brazil and Venezuela; Belgian endive, chicory, and endive from Panama; pineapple from South Africa; and peppers from Spain.

Before entering the United States, all of these fruits and vegetables are subject to inspection and disinfection at their port of first arrival to ensure that no plant pests are inadvertently brought into the United States. These precautions, along with other requirements, help ensure that these commodities do not introduce exotic plant pests, such as fruit flies, into the United States.

The regulations require the use of certain information collection activities, including the completion of import permits, phytosanitary inspection certificates, and fruit fly monitoring records.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the
