II. What Action Is EPA Taking Today?

EPA is proposing to approve the NO_x SIP submitted on April 3, 2003 as modified on May 27, 2004. EPA finds that Michigan's submittals are fully approvable because the initial April 3, 2003 submittal was conditionally approved and the conditions for full approvability were met in the May 27, 2004 submittal. In combination, these two submittals meet the requirements of the Phase I NO_x SIP Call.

We are proposing to approve Michigan's revision of the ozone SIP that responds to EPA's Phase I NO_x SIP Call. This revision consists of Michigan Air Pollution Control Rules 803, 805–810, and 812–817 as submitted on April 3, 2003 and Michigan Air Pollution Control Rules 802, 804 and 811 as submitted May 27, 2004. A combined package of these rules 802–817 as submitted on April 3, 2003 and May 27, 2004 was submitted as a supplement to the May 27, 2004 submittal for ease of incorporation by reference. This supplemental submittal was sent by MDEQ to EPA on August 5, 2004.

By this action, we are also proposing to vacate our April 16, 2004 (69 FR 20548) conditional approval of Michigan's earlier NO_x SIP submittal.

Approval and Promulgation of Air Quality Implementation Plans; Maryland and Virginia; Non-Regulatory Voluntary Emission Reduction Program Measures

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve State Implementation Plan (SIP) revisions submitted by the State of Maryland and by the Commonwealth of Virginia. These revisions establish a number of non-regulatory measures for which Maryland and Virginia seek SIP credit in rate-of-progress and attainment planning for the Metropolitan Washington DC 1-hour ozone nonattainment area (the Washington area). The intended effect of this action is to propose approval of SIP revisions submitted by Maryland and Virginia which establish certain non-regulatory measures. The non-regulatory measures include use of low-or-no-VOC content paints by certain state and local government agencies, auxiliary power units on locomotives, sale of reformulated consumer products in the

Northern Virginia area, accelerated retirement of portable fuel containers by certain state and local government agencies, and renewable energy measures (wind-power purchases by certain local government agencies). This action is being taken under section 110 of the Clean Air Act (CAA or the Act).
