Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995, Public Law 104-13.

Bureau: International Trade Administration.

Title: Annual Report from Foreign-Trade Zones.

Agency Form Number: ITA-359P.

OMB Number: 0625-0109.

Type of Request: Regular Submission.

Estimated Burden: 14,330 hours.

Estimated Number of Respondents: 160.

Est. Avg. Hours Per Response: 38 to 211 hours (depending on the size and structure of the foreign-trade zone).

Needs and Uses: The Foreign-Trade Zone Annual Report is the vehicle by which Foreign Trade Zone (FTZ) grantees report annually to the Foreign Trade Zones Board, pursuant to the requirements of the Foreign Trade Zones Act (19 U.S.C. 81a-81u). The annual reports submitted by grantees are the only complete source of compiled information on FTZ's. The data and information contained in the reports relates to international trade activity in FTZ's. The reports are used by the Congress and the Department to determine the economic effect of the FTZ program. The reports are also used by the FTZ Board and other trade policy officials to determine whether zone activity is consistent with U.S. international trade policy, and whether it is in the public interest. The public uses the information regarding activities carried on in FTZ's to evaluate their effect on industry sectors. The information contained in annual reports also helps zone grantees in their marketing efforts.

Affected Public: State, local, or tribal governments or not-for-profit institutions which are FTZ grantees.

Frequency: Annual.

Respondent's Obligation: Required to maintain license, mandatory.

OMB Desk Officer: David Rostker, (202) 395-7340.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution, NW., Washington, DC 20230. E-mail: dHynek@doc.gov.

Written comments and recommendations for the proposed information collection should be sent via e-mail to David_Rostker@omb.eop.gov or fax (202)395-7285, within 30 days of publication of this **Federal Register** notice.

Dated: December 21, 2004.

Intergovernmental Review:

Applications under this program are subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."

Evaluation and Selection Procedures:

Each pre-application proposal is circulated by a project officer to the appropriate regional office staff for review and comments. When the necessary input and information are obtained, the pre-application proposal is considered by the regional office Investment Review Committee (IRC), made up of regional office staff. The IRC discusses the proposal and all pertinent documentation and evaluates it on two levels of analysis. The IRC (a) determines if the proposal meets the program specific criteria provided under 13 CFR 305.2 for Public Works, 13 CFR 306.2 for Planning Assistance, 13 CFR 307.2 for Technical Assistance, 13 CFR 308.2 and 308.4 for Economic Adjustment and 13 CFR 315.5 and 315.6 for Trade Adjustment Assistance for

Firms, and (b) rates each proposal using the general evaluation criteria set forth at 304.2 as further defined by the Investment Policy Guidelines set forth in this notice below. University Center and National Technical Assistance funding proposals will be evaluated pursuant to a separate **Federal Register** notice published in this issue.

After completing its evaluation, the IRC recommends whether or not an application should be invited, documenting its recommendation in the meeting minutes or in the Investment Proposal Summary and Evaluation Form. The IRC analysis of the project's fulfillment of the Investment Policy Guidelines is reviewed at EDA headquarters for quality assurance. After receiving quality control clearance, the Selecting Official (depending on the program, either the Regional Director or the Assistant Secretary) selects the applications to be invited after considering the evaluations provided by the IRC and the degree to which one or more of the Funding Priorities provided below are included (or packaged together) in making his/her decision as to which preapplication proposals should be invited. The Selecting Official then formally invites the successful proponent to submit a formal application. If the Selecting Official declines to invite a full application, he/she provides written notice to the proponent. In the case of a continuation grant, no pre-application proposal is required. Proposals received after the date of this notice will be processed in accordance with the requirements set forth herein until the next annual **Federal Register** is published.

If a successful proponent submits a formal application, it is reviewed by EDA program officials to determine whether it contains any deficiencies under EDA regulations at 13 CFR chapter III. If deficiencies are noted, the applicant is provided a written request to amend the application to resolve any deficiencies. EDA will negotiate with the applicant to resolve any deficiencies. If deficiencies are not resolved 30 days after receipt of the written notice, the application may be rejected. If the full application is accepted, the applicant and EDR are notified and it is forwarded for final reviews and processing in accordance with EDA and DOC procedures.

Evaluation Criteria: EDA investment proposals will be competitively evaluated primarily on their ability to meet or exceed the following Investment Policy Guidelines (each criterion will be given equal weight):

1. *Be market-based and results driven.* An investment will capitalize on a

region's competitive strengths and will positively move a regional economic indicator measured on EDA's Balanced Scorecard, such as: an increased number of higher-skill, higher-wage jobs; increased tax revenue; or increased private sector investment.

2. *Have strong organizational leadership.* An investment will have strong leadership, relevant project management experience, and a significant commitment of human resources talent to ensure a project's successful execution.

3. *Advance productivity, innovation, and entrepreneurship.* An investment will embrace the principles of entrepreneurship, enhance regional clusters, and leverage and link technology innovators and local universities to the private sector to create the conditions for greater productivity, innovation, and job creation.

4. *Look beyond the immediate economic horizon, anticipate economic changes, and diversify the local and regional economy.* An investment will be part of an overarching, long term comprehensive economic development strategy that enhances a region's success in achieving a rising standard of living by supporting existing industry clusters, developing emerging new clusters, or attracting new regional economic drivers.

5. *Demonstrate a high degree of commitment by exhibiting:*

- High levels of local government or non-profit matching funds and private sector leverage;
- Clear and unified leadership and support by local elected officials; and
- Strong cooperation between the business sector, relevant regional partners and local, state and federal governments.

Funding Priorities: Highly rated preapplication proposals may or may not be invited to submit full applications based on the following Funding Priorities. Generally, all EDA proposals and applications should enhance regional competitiveness and support long-term development of the regional economy. Further priority will be given to proposals that:

1. Encourage innovation and regional competitiveness:
 - a. Reflect coordination of strong regional leadership committed to regional cluster development;
 - b. Encourage a formal organization structure and process for working on cluster development and maintaining consensus;
 - c. Encourage a common vision and collaboration among firms, universities,

and training centers to implement a cluster strategy;

d. Establish research and industrial parks that encourage innovation-based competition;

e. Implement cluster-focused and innovation-focused business development efforts; and

f. Develop or implement coordinated economic and workforce development strategies.

2. Upgrade core business infrastructure such as:

- a. Transportation infrastructure;
- b. Communications infrastructure; and

c. Specialized training program infrastructure.

3. Help communities plan and implement economic adjustment strategies in response to sudden and severe economic dislocation. Specifically, EDA will give highest priority to support manufacturing-impacted communities by:

a. Helping communities that experience manufacturing job losses (e.g., major layoffs, plant closures or trade impacts); and

b. Supporting innovation and competitiveness in American manufacturing.

4. Support technology-led economic development, for example, proposals that:

a. Reflect the important role of research and development capacity of universities in regional development; and

b. Create and support technology transfers.

5. Advance community and faith-based social entrepreneurship in redevelopment strategies for areas of chronic economic distress.
