NOI Proceeding and Avatar's Report**On August 20, 2003, the Commission released a Notice of Inquiry (NOI), *In the Matter of Effects of Communications Towers on Migratory Birds*, 68 FR 53696, September 12, 2003, to develop a record on how, and to what extent, migratory birds may be affected by our nation's communications infrastructure. The NOI sought comment on existing scientific research concerning the number of migratory bird collisions with communications towers and the role that specific factors, such as lighting, height and type of antenna structure, weather, location, physiographic features of sites, and migration paths, may have in increasing or decreasing the incidence of such collisions. A number of parties filed comments in which they referred to scientific studies of past incidents of migratory birds colliding with communications towers.

To help the Commission evaluate these scientific studies, the Commission retained Avatar Environmental, LLC, (Avatar) an environmental risk

consulting firm. After reviewing the scientific studies referred to by the comments and reply comments, Avatar submitted a report of its findings, entitled *Notice of Inquiry Comment Review Avian/Communication Tower Collisions, Final, Prepared for Federal Communications Commission*. The public notice gives parties an opportunity to comment on Avatar's report.
