

Proposed Collection: Title: "Rapid Access to Interventional Development." The NCI RAID program receives between 30–40 applications yearly. R*A*N*D receives 8–10 applications yearly. IIP receives 10–15 applications yearly. Technology transfer information—2 hours per application, completed by technology transfer specialist. Letters of commitment—0.5 hours per application, completed by institutional head of clinical research. Application—30–40 hours per application, completed by Ph.D., or M.D., Ph.D., level scientist. Other RAID type programs accept about 10–12 applications; however, the length of the material requested is somewhat shorter than the NCI Raid programs. The proposed NIH director's Roadmap Initiative anticipates 20–30 applications in the initial round. The total annual burden anticipated for the receipt dates for this emergency clearance request is estimated to be 4000 hours. A subsequent regular request for approval of the continuing collection will address the future estimated annual burden. The cost to the respondents based on the 4000 hour burden will be approximately \$250,000.
