

sources (including national, State and local data and information from grantee consortia leaders and clients) in order to develop a Report to Congress in September 2005 and a national evaluation report by September 2006. The survey will collect data for key evaluation goals including coordination and integration of safety net services, capacity and access issues, health care delivery, quality of care, cost savings,

sustainability, and provider and patient satisfaction. The survey of the HCAP consortia leaders, who typically are project directors, is a short Web-based survey of 12 questions that will be available through the HRSA HCAP Web site. The sample of eligible consortia includes all those who have received HCAP funding, with the exception of the most recent round of HCAP grantees. These grantees were excluded from the sample because they lack program experience that

would provide the evaluation with significant information. This survey will be used to assess consortia leaders' perspectives on the strengths and limitations of using consortia to strengthen the community safety net. It will query leaders on the perceived efficacy of the consortia approach, accomplishments, strengths, weaknesses and suggestions/areas for future improvement of the program. The burden estimate is as follows:

Data collection	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden hours
Provider Survey	405	1	405	.33	134
Consortia Leaders Survey	145	1	145	.25	36
Totals	550	550	170
