SUPPLEMENTARY INFORMATION:

A. What Is This Task Force and What Is the Purpose of This Public Meeting?

The EPA created the Task Force in June 2004 in response to a recommendation from the Permitting/Toxics Subcommittee of the CAAAC. The Task Force is made up of 18 representatives from State and local permitting agencies, industry, and environmental and public interest groups. The Task Force will gather information from interested persons on the performance of the title V operating permits program and prepare a report documenting how the title V program is performing and what elements are working well and/or poorly. The report may include suggestions on how to improve the program. The Task Force is gathering information by, among other things, holding a series of three public meetings. The San Francisco meeting is expected to be the last public meeting. Other public meetings were held in Washington, DC, on June 25, 2004, and Chicago, Illinois, on September 14 and 15, 2004.

The purpose of these public meetings is to gather information on the performance of the title V program, specifically on aspects of the program that are working well and those that are working poorly. The Task Force welcomes any information from stakeholders that will help it prepare its report on the performance of the title V program.

For further information on the task force, see the May 17, 2004, notice in the **Federal Register** (69 FR 27922) and
